CASSANDRA ESTRELLA

The Secrets of the Self Dr. Rashad Khalifa Ph.D.
 Asha Parekh was to the movies born. Ever since she was knee-high, she faced the camera as a child artiste, while performing simultaneously at dance fetes. An alumnus of Bombay's The J. B. Petit Girls' High School, she devoted after-school hours to learning classical dance from exacting gurus. Given a break as a leading lady by Filmalaya Studio's Sashadhar Mukherjee, she debuted opposite Shammi Kapoor in the romantic entertainer Dil Deke Dekho. Instantaneously, the audience and the critics agreed: "A star is born." Followed a concatenation of silver and golden jubilee hits, which established her as the quintessential Hit Girl. Possessed of all the requisites of the cinema of the 1960s and the '70s - felicity at instinctive acting, intricate dance skills and the ability to invest conviction into the roles of zestful, glamour-exuding film heroines - she made an impact, too, with parts demanding gravitas. Apart from films in Hindi, she has also acted in films in Gujarati, Punjabi and a film in Kannada. The

Mumbai film trade, to date, acknowledges her as one of the heroines with the highest number of successes. Her innumerable dance ballets on stage have earned her untold acclaim, at home and overseas. Among her other facets, she has been involved since decades in running a charitable hospital. She was Chairperson of the Central Board of Film Certification (1998-2001) and has been associated with the Cine and TV Artistes' Associations and other organisations dedicated to the welfare of film industry workers, technicians and actors. She turned producer and director with several top TRP-rated TV serials like 'Kora Kagaz' and 'Palash ke Phool' and programmes like 'Baaje Paayal'. Currently she has chosen to retire from acting, but adds, "Never say never." She lives by the famed Juhu shoreline in Mumbai.

Dear Beloved Son is an excellent compilation of extremely valuable pieces of advice based not only on theory but on the practical experience and insight of Imam al-Ghazali. Since he presented his disciple with these pieces of advice at a stage in life where he had studied and excelled in all major sciences of

Islam, it holds extra significance. He covers topics such as sincerity, knowledge, action, death, da'wah, hypocrisy, time, dhikr and Shari'ah, with delicacy and coherency, so that one is able to grasp clearly the multidimensional facets of a comprehensive Islam.

Objectivism Harper Collins

A common misunderstanding that deters people from practicing Islam is the idea that Islamic Teachings are difficult to practice. Alongside this, there are many opportunities a person comes across on a daily basis to amass reward for the Hereafter, but which one missed due to lack of knowledge. *Easy Good Deeds* is a valuable book that details many good deeds that a person can easily practice without any major effort. The author has highlighted actions over a wide spectrum of areas, ranging from worship to social conduct, all of which entail minimum effort but reap abundant rewards nonetheless. This concise work will help readers appreciate the importance of many righteous actions, realize how easy it is to perform them, and ultimately imbue them with the spirit to practice Islam in its entirety. Translated by Shaykh Javed Iqbal Mufti Taqi 'Uthmani is one of the leading Islamic scholars living today. Author of more than 40 books, he is an expert in the fields of Islamic law, Economics, and Hadith. For the past 35 years, he has been teaching at the Darul-Uloom in Karachi which was established by his father Mufti Muhammad Shafi, the late Grand Mufti of Pakistan. He also holds a degree in law and has sat as a Judge at the Shari'ah Appellate Bench of the Supreme Court of Pakistan. He is a consultant to several international Islamic financial institutions and has played a key part in the move toward interest-free banking and the establishment of Islamic financial institutions. He is the deputy chairman of the Jeddah-based Islamic Fiqh Council of the Organization of Islamic Conference (OIC).

The writer has logically and in a beautiful manner proved that Quran Majeed is a balanced book, it is a miracle and proof of its being a book of God. In this book, Shah Al-Abidi has given common knowledge examples-of Urdu and Persian couplets, Bhagat Kabears dohas, Mian Muhammed Bakhsh's and Hazrat Shah Sultan Bahoos philosophical poems and references from Maulana Roam, and put them in relevant manner thus enhancing the beauty, interest and value. I believe that lovers of Quran Kareem will find this book as a beautiful and invaluable presentation. This represents an aspect of Quran Majeed and the readers will find aiding strength to their faith. I hope, this book will become known and ever lasting. I pray to Almighty God that the writer, Mr. Akhter Moeed Shah Al-Abidi, had ongoing service to Quran Majeed, its readers and humanity. A beautiful comprehensive book by the legendary Shaikh Abbas bin Mohammad Reza Al-Qummi about Whatever comes into existence must traverse a path leading to death, it makes no difference whether it be a man or one of the other countless forms of life. The Commander of the Faithful (Amirul Mo'meneen) Ali (A.S.) says, If you could see that has been seen by those of you who have died, you would be puzzled and troubled. Then you would have listened and obeyed, but what they have seen is yet curtained from you. Shortly, the curtain would be thrown off. You have been shown, provided you see and you have been made to listen provided you listen, and you have been guided if you accept guidance". (Nahjul Balagha: Sermon 20).The book contain info regarding dreams, maad, grave, incidents, fishare Qabr, pule sirat, haud kausar, drinks of paradise, details about the grave and much more with authenticated ahadith & quranThis book is one of the many Islamic publications distributed by Ahlulbayt

This book provides an overview of the practice of Islamic finance and the historical roots that define its modes of operation. The focus of the book is analytical and forward-looking. It shows that Islamic finance exists mainly as a form of rent-seeking legal-arbitrage. In every aspect of finance - from personal loans to investment banking, and from market structure to corporate governance - Islamic finance aims to replicate in Islamic forms the substantive functions of contemporary financial instruments, markets, and institutions. By attempting to replicate the substance of contemporary financial practice using pre-modern contract forms, Islamic finance has arguably failed to serve the objectives of Islamic law. This book proposes refocusing Islamic finance on substance rather than form. This approach would entail abandoning the paradigm of 'Islamization' of every financial practice. It would also entail reorienting the brand-name of Islamic finance to emphasize issues of community banking, micro-finance, and socially responsible investment.

This book is the first comprehensive attempt to explain Ibn 'Arabi's distinctive view of time and its role in the process of creating the cosmos and its relation with the Creator. By comparing this original view with modern theories of physics and cosmology, Mohamed Haj Yousef constructs a new cosmological model that may deepen and extend our understanding of the world, while potentially solving some of the drawbacks in the current models such as the historical Zeno's paradoxes of motion and the recent Einstein-Podolsky-Rosen paradox (EPR) that underlines the discrepancies between Quantum Mechanics and Relativity.

The Secrets of the Self is a book-length, philosophical poem rooted in metaphysical thought and ideology, as well as Islamic theology. Originally published in 1915, the poem speaks of the "Self" in relation to the universe, how it is the inner power and soul of each individual human. It instructs on how to improve the Self through Love and willpower, which can then help one control the forces within the universe. The poem includes stories that illustrate its points and promotes the spread of Islamic ideals. MUHAMMAD IQBAL (1877-1938) was a poet, prophet, and politician in British India. Born in Sialkot, Punjab, Iqbal converted to Islam with his family as a child. He studied literature and law at Cambridge, Munich, and Heidelberg before starting his own law practice and concentrating on his scholarly writing, which he authored primarily in Persian. Many of Iqbal's works promote Islamic revival, especially in South Asia, and he was a well-known leader of the All India Muslim League. Today, he is recognized as the official poet of Pakistan, and his birthday is celebrated as a national holiday.

THE 25TH ANNIVERSARY EDITION—The definitive statement of Ayn Rand's philosophy as interpreted by her best student and chosen heir. This brilliantly conceived and organized book is Dr. Leonard Peikoff's classic text on the abstract principles and practical applications of Objectivism, based on his lecture series "The Philosophy of Objectivism." Ayn Rand said of these lectures: "Until or unless I write a comprehensive treatise on my philosophy, Dr. Peikoff's course is the only authorized presentation of the entire theoretical structure of Objectivism—that is, the only one that I know of my knowledge to be fully accurate." In Objectivism, Peikoff covers every philosophic topic that Rand regarded as important—from certainty to money, from logic to art, from measurement to sex. Drawn from Rand's published works as well as in-depth conversations between her and Peikoff, these chapters illuminate Objectivism—and its creator—with startling clarity. With Objectivism, the millions of readers who have been transformed by Atlas Shrugged and The Fountainhead will discover the full philosophical system underlying Ayn Rand's work.

Khadeejah is a hard-working and stubborn first-generation Indian woman who longs for her beloved homeland and often questions what she is doing on the tip of Africa. At 37, her daughter Summaya is struggling to reconcile her South African and Indian identities, while Summaya's own daughter, eleven-year-old Aneesa, is a girl who has some difficult questions of her own. Is her mother lying to her about her father's death? Why won't she tell her what really happened? Gradually, the past merges with the present as the novel meanders through their lives, uncovering the secrets people keep, the words they swallow, and the emotions they elect to mute. For this family, faintly detectable through the sharp spicy aromas that find their way out of Khadeejah's kitchen, the scent of tragedy is always threatening. Eventually, it will bring this family together. If not, it will tear them apart.

This book aims at presenting, describing, and summarizing the latest advances in polymer flooding regarding the chemical synthesis of the EOR agents and the numerical simulation of compositional models in porous media, including a description of the possible applications of nanotechnology acting as a booster of traditional chemical EOR processes. A large part of the world economy depends nowadays on non-renewable energy sources, most of them of fossil origin. Though the search for and the development of newer, greener, and more sustainable sources have been going on for the last decades, humanity is still fossil-fuel dependent. Primary and secondary oil recovery techniques

merely produce up to a half of the Original Oil In Place. Enhanced Oil Recovery (EOR) processes are aimed at further increasing this value. Among these, chemical EOR techniques (including polymer flooding) present a great potential in low- and medium-viscosity oilfields. • Describes recent advances in chemical enhanced oil recovery. • Contains detailed description of polymer flooding and nanotechnology as promising boosting tools for EOR. • Includes both experimental and theoretical studies. About the Authors Patrizio Raffa is Assistant Professor at the University of Groningen. He focuses on design and synthesis of new polymeric materials optimized for industrial applications such as EOR, coatings and smart materials. He (co)authored about 40 articles in peer reviewed journals. Pablo Druetta works as lecturer at the University of Groningen (RUG) and as engineering consultant. He received his Ph.D. from RUG in 2018 and has been teaching at a graduate level for 15 years. His research focus lies on computational fluid dynamics (CFD).
