* Outboard motor
repair for the average
guy * Fix up an old
outboard and SAVE
\$1000 or more
compared to buying a
new motor! With a little
know-how and a few
common tools, you can
fix an old motor—bring
it back from the dead.
Sometimes all it takes
is a squirt of WD-40

into the cylinder and a
new spark plug. Or a
new set of points and
condensers—which do
not require expert
knowledge or black
magic to install. Maybe
the carburetor needs
cleaning and adjusting.
You can do it! Max E.
Wawrzyniak III is an
outboard motor guru.
He advises you to find
an old motor at a yard
sale for \$100 or so
(and he tells you
exactly which ones to
look for), and fix it
up—rather than
spending \$1500 or
more on a new motor.
He is a big fan of
“cheap power.” Get on
the water with money
left in your pocket.
With a basic
understanding of how
these motors work, a
little logical thinking,
and a few hours’ work,
you can go boating for
a fraction of what

everyone else has to pay. Also—for the boater who already owns an outboard motor of any age—this book demystifies these internal-combustion marvels that can bring such frustration if they malfunction. You'll learn how they work, and the simple things you can do to keep them running forever. What Max teaches are not only money-saving skills, but can also be life-saving, as you will no longer be helpless in the face of engine trouble on the water. His clear instructions and over one hundred color photographs will make anyone into a capable outboard mechanic. INCLUDES: What to Buy, Where to Find It, Tools Needed and Where to Begin, The Ignition System, Carburetors, Water

Pump Repairs, Recoil Starters, Fuel Tanks, Propellers, Lower Units, Emergency Shut-Down, Fuel Pump Conversion, Remote Controls: Shift and Throttle, Remote Control: Steering, Tiller Conversion, Trouble-Shooting, and Onboard Spares and Tools. This book has always been very popular and well-used in its print edition. Now it's available as an e-book so you can load it into your phone or tablet and always have this wealth of repair / maintenance information at your fingertips, even when out on your boat.
