The dark story of the shocking resurgence of white supremacist and nationalist groups, and their path to political power Six years ago, Vegas Tenold embedded himself among the members of three of America's most ideologically extreme white nationalist groups-the KKK, the National Socialist

Movement, and the Traditionalist Workers Party. At the time, these groups were part of a disorganized counterculture that felt far from the mainstream. But since then, all that has changed. Racially-motivated violence has been on open display at rallies in Charlottesville, Berkeley, Pikesville, Phoenix, and Boston. Membership in white nationalist organizations is rising, and national politicians, including the president, are validating their perceived grievances. Everything You Love Will Burn offers a terrifying, sobering inside look at these newly empowered movements, from their conventions to backroom meetings with Republican operatives. Tenold introduces us to neo-Nazis in Brooklyn; a millennial Klanswoman in Tennessee; and a rising

star in the movement, nicknamed the "Little Führer" by the Southern Poverty Law Center, who understands political power and is organizing a grand coalition of far-right groups to bring them into the mainstream. *Everything You Love Will Burn* takes readers to the dark, paranoid underbelly of America, a world in which the white race is under threat and the enemy is everywhere.

Of all the people documented by the Foxfire students since 1966, none has been more appealing to readers than Arie Carpenter. For all those who have

read and cherished the Foxfire books, here is a loving portrait of a fondly remembered friend. This book is not just about Aunt Arie; it is Aunt Arie. In her own words, she discusses everything from planting, harvesting, and cooking to her thoughts about religion and her feelings about living alone. Also included are testimonials from many who knew her and a wealth of photographs.

The ten works of fiction explored in this book stimulate lively dialogue on topics like bioterrorism, cloning, organ transplants,

obesity and heart disease, sexually transmitted diseases, and civil and human rights. This interdisciplinary and multicultural approach introducing literature across the curricula helps students master medical and bioethical concepts brought about by advances in science and technology, bringing philosophy into the world of science. Letters from the Hive Chelsea Green Publishing

The largest edible fruit native to the United States tastes like a cross between a banana and a mango. It grows wild in twenty-six states, gracing Eastern forests each fall with sweet-smelling, tropical-flavored abundance. Historically, it fed and sustained Native Americans and European explorers, presidents, and enslaved African Americans, inspiring folk songs, poetry, and scores of place names from Georgia to Illinois. Its trees

are an organic grower's dream, requiring no pesticides or herbicides to thrive, and containing compounds that are among the most potent anticancer agents yet discovered. So why have so few people heard of the pawpaw, much less tasted one? In Pawpaw—a 2016 James Beard Foundation Award nominee in the Writing & Literature category—author Andrew Moore explores the past, present, and future of this unique fruit, traveling from the Ozarks to Monticello; canoeing the lower Mississippi in search of wild fruit; drinking pawpaw beer in Durham, North Carolina; tracking down lost cultivars in Appalachian hollers; and helping out during harvest season in a Maryland orchard. Along the way, he gathers pawpaw lore and knowledge not only from the plant breeders and

horticulturists working to bring pawpaws into the mainstream (including Neal Peterson, known in pawpaw circles as the fruit's own "Johnny Pawpawseed"), but also regular folks who remember eating them in the woods as kids, but haven't had one in over fifty years. As much as Pawpaw is a compendium of pawpaw knowledge, it also plumbs deeper questions about American foodways—how economic, biologic, and cultural forces combine, leading us to eat what we eat, and sometimes to ignore the incredible, delicious food growing all around us. If you haven't yet eaten a pawpaw, this book won't let you rest until you do.

Don't Suck, Don't Die Doubleday
"Not only one of the best books of the year, it's one of the most beautiful rock

memoirs ever written . . . Her portrayal of Chesnutt is perfectly done." —NPR
"Friend, asshole, angel, mutant," singer-songwriter Vic Chesnutt "came along and made us gross and broken people seem . . . I dunno, cooler, I guess." A quadriplegic who could play only simple chords on his guitar, Chesnutt recorded seventeen critically acclaimed albums before his death in 2009, including *About to Choke*, *North Star Deserter*, and *At the Cut*. In 2006, NPR placed him in the top five of the ten best living songwriters, along with Bob Dylan, Tom Waits, Paul McCartney, and Bruce Springsteen. Chesnutt's songs have also been covered by many prominent artists, including Madonna, the Smashing Pumpkins, R.E.M., Sparklehorse, Fugazi, and Neutral Milk Hotel. Kristin Hersh

toured with Chesnutt for nearly a decade and they became close friends, bonding over a love of songwriting and mutual struggles with mental health. In *Don't Suck, Don't Die*, she describes many seemingly small moments they shared, their free-ranging conversations, and his tragic death. More memoir than biography, Hersh's book plumbs the sources of Chesnutt's pain and creativity more deeply than any conventional account of his life and recordings ever

could. Chesnutt was difficult to understand and frequently difficult to be with, but, as Hersh reveals him, he was also wickedly funny and painfully perceptive. This intimate memoir is essential reading for anyone interested in the music or the artist. "The music made by the late Vic Chesnutt was evocative, haunting and often heartbreaking. Kristin Hersh's book about the singer-songwriter shares all of these qualities." —Rolling Stone
