Titanic(Cassette Tape 1)(Factfiles 1) OUP India

This book is part of a collection of true stories from around the world which are guaranteed to capture your pupils' imaginations and develop their reading skills. Oxford Reading Tree True Stories are written by well-known authors and are full of stunning illustrations and photography. This book is also available as part of a mixed pack of 6 different books or a class pack of 36 books of the same Oxford Reading Tree stage. Each book pack comes with a free copy of invaluable teaching notes.

Computer Fundamentals & Programming in C OUP Oxford
Computer Fundamentals and Programming in C is designed to serve as a textbook for the undergraduate students of engineering, computer science, computer applications, and information technology. The book seeks to provide a thorough

overview of all the fundamental concepts related to computer science and programming. It lays down the foundation for all the advanced courses that a student is expected to learn in the following semesters.

Oxford Bookworms Weidenfeld & Nicolson

The English artist Eric Hebborn (1934-1996) explains the secrets of his forging techniques in this illustrated work compiled shortly before his death. Drawings previously attributed to artists such as Picasso and Corot were in fact the work of Hebborn and this work provides an insight through explanations of his work. Inks, papers, pigments, monograms and signatures are all explained as well as Hebborn's own often outrageous speculations about the nature of art and value.
