College Writing Skills offers students a practical guide to becoming better writers. From mastering the traditional five-paragraph essay and its variations to learning about the finer points of grammar and punctuation, College Writing Skills empowers students to take control of their writing and put it to work for them. Now, with the new online writing program Connect Writing and the soon-to-come Connect Langan, an online interactive version of College Writing Skills, this new eighth edition brings writing closer to students and helps to take them where they need to go. Whether online or in class, College Writing Skills offers students the tools to succeed.

College Writing Skills Macmillan

College Writing Skills with Readings 10e highlights the importance of writing with a purpose by focusing on four bases of writing, unity, support, coherence, and sentence skills. The four bases provide students with clear guidance on how to organize their thoughts, structure their main idea into a thesis, provide supporting evidence to their claim, and revise and edit their work into a well thought-out essay. College Writing Skills with Readings personalizes and grounds students' writing experience by placing all of its reading, writing, and essay examples within three key realms - personal, academic, and workplace (PAW) - to emphasize the importance of writing in every facet of life.

Real Skills with Readings offers practical, accessible coverage of basic sentence skills and step-by-step guidance on writing paragraphs. Like the other books in the Anker series, Real Skills motivates students with its message that writing is an essential and achievable skill. Real Skills connects engaging grammar and writing instruction with an emphasis on critical thinking and reading skills — the keys to successful writing. Real-world examples, assignments, and readings show students the relevance of writing to all aspects of their lives. Real Skills with Readings is now integrated with LearningCurve — online, adaptive quizzing activities that reinforce what students learn in the book.

What is College Reading? McGraw-Hill Humanities, Social Sciences & World Languages

College Writing Skills uses explanation, demonstration, and practice to teach skills essential to success in college writing. For this course Peder Jones and Jay Farness have constructed a framework of rhetoric--work in composing paragraphs and essays--around disciplined study of sentences and words. The authors have sought in each section of the book to combine the most useful features of contemporary and traditional approaches to college English. Their overall aim is to enable the beginning college writer to compose clear and effective sentences, paragraphs, and compositions. This new edition of College Writing Skills is a refinement of the four previous editions; it has been shaped by helpful comments from students and instructors who have used the course. Exercises have been updated, and many minor changes for clarity have been made. Basic features of this text have not changed, however. As a hybrid of textbook and workbook, it continues to stress focused practice leading to directed independent composing activities; it emphasizes student writing rather than students reading about writing. This emphasis translates into more than 500 sets of exercises, more than 100 optional workshop activities, and an Appendix covering special problems in the acquisition of English. The exercises in this

textbook embody our belief that practice is crucial to improving one's writing skills. Accordingly, this text provides practice in forming ideas, in getting ideas out of one's head and onto paper, in experimenting with various sentence structures in order to achieve clarity, in following models of correct grammar and effective style, and in making the writing process pay off through effective revision and editing. Volumes in Writing Spaces: Readings on Writing offer multiple perspectives on a wide-range of topics about writing, much like the model made famous by Wendy Bishop's "The Subject Is . . ." series. In each chapter, authors present their unique views, insights, and strategies for writing by addressing the undergraduate reader directly. Drawing on their own experiences, these teachers-as-writers invite students to join in the larger conversation about developing nearly every aspect of craft of writing. Consequently, each essay functions as a standalone text that can easily complement other selected readings in writing or writing-intensive courses across the disciplines at any level. Topics in Volume 1 of the series include academic writing, how to interpret writing assignments, motives for writing, rhetorical analysis, revision, invention, writing centers, argumentation, narrative, reflective writing, Wikipedia, patchwriting, collaboration, and genres.
