**Mathematics for the  
International Student**

Haese & Harris  
Publications

This book provides practical support and guidance to help IB Diploma Programme students prepare for their mathematics SL exams.

**Mathematics for the  
International Student**

Hodder Education

Featuring a wealth of digital content, this concept-based Print and Enhanced Online Course Book Pack has been developed in cooperation with the IB to provide the most comprehensive support for the new DP Mathematics: applications and interpretation HL syllabus, for first teaching in September 2019.

**MYP Mathematics 3**

OUP Oxford

The most comprehensive match to the new 2014 Chemistry syllabus, this completely revised edition gives you unrivalled support for the new concept-based approach,

the Nature of science. The only DP Chemistry resource that includes support directly from the IB, focused exam practice, TOK links and real-life applications drive achievement.

*Mathematics for the International Student 10E MYP 5 (extended)* Hodder Education

Featuring a wealth of digital content, this concept-based Print and Enhanced Online Course Book Pack has been developed in cooperation with the IB to provide the most comprehensive support for the new DP Mathematics: analysis and approaches HL syllabus, for first teaching in September 2019.

**2019-2021** Mathematics for the International Student Mathematics HL (core) for Use with IB Diploma Programme : Exam Preparation & Practice Guide Mathematics for the International Student: Worked solutions Mathematics for the International Student: mathematics HL

(Core) This text is written for the new courses (first examinations 2006), with the book covering the

new 2-year diploma course. Contains worked examples, graded questions, with answers. The accompanying CD contains the full text of the book and activities. Mathematics for the International Student Mathematical Studies SL, for Use with IB Diploma Programme : Worked Solutions Mathematics for the International Student Mathematics SL, for Use with IB Diploma Programme Mathematical Studies

This second edition, written especially to support the University of Cambridge International Examinations IGCSE Mathematics (0580) syllabus, is now in full colour and includes a student's CD. The text is ideal for students following the Extended Curriculum. International contexts are used throughout to aid understanding and ensure this text is relevant to students everywhere. *Mathematics 10E (MYP 5 Extended)* OUP Oxford A concept-driven and assessment-focused approach to Mathematics teaching and learning. -

Approaches each chapter with statements of inquiry framed by key and related concepts, set in a global context - Supports every aspect of assessment using tasks designed by an experienced MYP educator - Differentiates and extends learning with research projects and interdisciplinary opportunities - Applies global contexts in meaningful ways to offer an MYP Mathematics programme with an internationally-minded perspective

**Mathematics for the IB Diploma: Higher Level with CD-ROM** Cambridge University Press

This revision guide will be a valuable resource and reference for students, assisting them to understand and learn the theory of IB Mathematics: Applications and Interpretation Standard Level. The Guide aims to help the IB student by both revising the theory and going through some well-chosen examples of the new IB Mathematics: Applications and Interpretation SL curriculum. By presenting the theory that every IB student should know before taking any quiz, test or exam, this revision guide is designed to make the topics of IB Math:

Applications and Interpretation SL both comprehensible and easy to grasp.

**Mathematical Studies SL for Use with IB Diploma Programme**

Oxford University Press - Children

A new series of Exam Preparation guides for the IB Diploma Mathematics HL and SL and Mathematical Studies.

This exam preparation guide for the IB Diploma Mathematics Standard Level course breaks the course down into chapters that summarise material and present revision questions by exam question type, so that revision can be highly focused to make best use of students' time.

Students can stretch themselves to achieve their best with 'going for the top' questions for those who want to achieve the highest results. Worked solutions for all the mixed and 'going for the top' questions are included, plus exam hints throughout. Guides for Mathematics Higher Level and Mathematical Studies are also available.

**Mathematics for the International Student**

Damaris Publishing  
This title forms part of the completely new

Mathematics for the IB Diploma series. This highly illustrated coursebook, available in both print and e-book formats, has been written to specifically cover the new IB Higher Level syllabus. Based on the new group 5 aims, the progressive approach encourages cumulative learning. Features include: a dedicated chapter exclusively for combined exercises; plenty of worked examples; questions colour-coded according to grade; exam-style questions; feature boxes of hints and tips. The print book includes a CD-ROM providing a complete e-version of the book, all the options chapters, extension worksheets, prior learning sheets, calculator skills sheets and fill-in proofs. These additional materials are also included in the e-book version.

Mathematics for the International Student  
Cambridge University Press

This text is written for the new courses (first examinations 2006), with the book covering the new 2-year diploma course. Contains worked examples, graded questions, with answers. The accompanying CD

contains the full text of the book and activities. Mathematics SL, for Use with IB Diploma Programme Open Court Publishing Company This book has been designed specifically to support the student through the IB Diploma Programme in Mathematical Studies. It includes worked examples and numerous opportunities for practice. In addition the book will provide students with features integrated with study and learning approaches, TOK and the IB learner profile. Examples and activities drawn from around the world will encourage students to develop an international perspective.

Mathematics for the International Student Mathematics HL (core) for Use with IB Diploma Programme : Exam Preparation & Practice  
Guide Mathematics for the International Student: Worked solutions Mathematics for

the International Student: mathematics HL (Core) *Mathematics for Year 10* Build solid mathematical understanding and develop meaningful conceptual connections. The inquiry-based approach holistically integrates the MYP key concepts, helping you shift to a concept-based approach and cement comprehension of mathematical principles. Fully comprehensive and matched to the Revised MYP, this resource builds student potential at MYP and lays foundations for cross-curricular understanding. Using a unique question cycle to sequentially build skills and comprehension, units introduce factual questions, followed by concept-based questions and conclude with debatable questions. This firm grounding in inquiry-based learning equips learners to actively explore mathematical concepts and relate them to the wider 21st Century world, strengthening comprehension. Progress

your learners into IB Diploma - fully comprehensive and matched to the Revised MYP Develop conceptual understanding in the best way for your learners learn by mathematical unit or by key concept Drive active, critical exp *Pre-diploma Studies SL (MYP 5) : Presumed Knowledge for Mathematical Studies SL, for Use with IB Middle Years Programme* This text is written for the new courses (first examinations 2006), with the book covering the new 2-year diploma course. Contains plenty of fully worked examples, well graded questions, with answers given for every question. Ages 17/18.
