How to Build & Power Tune Distributor-Type Ignition Systems Veloce Publishing Ltd

Britain's has a long, distinctive history producing farm model tractors for collectors, young and old, around the world. This book is the first comprehensive, fully illustrated guide for collectors of the model and toy tractors produced by Britain's in the ten years since it transferred all production to China. The book describes all the model tractors released in North America and Europe since 1998. As well as general releases it includes details and photographs of prototype and rare models. This is complemented by a catalogue describing the main features, differences, issue dates and codes of each model produced. Each is illustrated with six color photographs showing the model from different angles and the issue packaging.

Fast Ladies Veloce Publishing Ltd
There has been nothing published outside of Russia concerning the activities of its motor industry, by 1937 the Soviets had become the largest producers of motor vehicles in Europe, albeit with the help of Henry Ford The author decided to concentrate on the work of the pioneers in Czarist Russia, for their efforts were more diverse than those of their counterparts in the Soviet era. However, one Soviet motor car which was an indigenous product has been included to illustrate how the industry might have evolved if Henry Ford had not been approached. This is a comprehensive overview of all facets of vehicle production from the early days to the final demise of the Soviet Union. All

the manufacturers of motor vehicles, certain accessories, military machines, and even aero engines are recorded in this unique book.

A Mini Called Zak Veloce Publishing Ltd
Collecting vintage diecast toy cars has become an increasingly popular hobby over the last 25 years, and this book provides a comprehensive overview of the companies that made these toys during the 1950s and 1960s. As well as examining the major names such as Dinky Toys, Corgi Toys and Matchbox (Great Britain), Solido (France), Tekno (Denmark) and Tootsietoy (USA), this book is unique in its coverage of many smaller and more obscure brands, not only from Europe or the USA but from countries as far afield as Japan, Israel and Argentina. The book provides fascinating insights into the history of individual companies, accompanied by 250 photographs of rare examples, most of them with their original boxes. A further unique feature is the inclusion of a large selection of colorful and evocative illustrations from catalogs and period trade advertisements. For the newcomer to the hobby, this volume will provide an ideal introduction to the history of the manufacturers active in this field, while experienced collectors will make many new discoveries.

Forthcoming Books Bloomsbury Publishing

Expert practical advice from an experienced race engine builder on how to build an ignition system that delivers maximum power reliably. A lot is talked about ignition systems and there is a bewildering choice of expensive aftermarket parts, which all claim to deliver more power. Des Hammill cuts through the myth and hyperbole and tells readers what really works, so that they can build an excellent system

without wasting money on parts and systems that simply don't deliver. Ignition timing and advance curves for modified engines is another minefield for the inexperienced, but Des uses his expert knowledge to tell readers how to optimize the ignition timing of any high-performance engine.

In 1965, Colin Chapman persuaded Ford to underwrite development of a V8 for the new 3000cc Grand Prix formula. Built by Cosworth, the new DFV engine won Lotus four World Championship Grands Prix in 1967. A year later, and now available to other constructors, the engine began its domination of Grand Prix racing.

The Book of the Classic MV Agusta Fours Veloce Publishing Ltd

Buying a classic car is an expensive business and mistakes can prove costly financially and in time, effort and stress. Wouldn't it be great if you could take an expert with you? With the aid of this book's step-by-step guidance from a marque specialist, you can! You'll discover all you need to know about the car you want to buy. The unique points system will help you to place the car's value in relation to condition, while extensive photographs illustrate the problems to look out for. This is an important investment - don't buy a Mini without this book's help.

Pocket Guide to Britains Farm Model and Toy Tractors, 1998-2008 Veloce Publishing Ltd

Runways and Racers concentrates on the short transitional period, 1952-1954, for sports car racing in America following the ban on public road racing in many of the States. The ban left the rapidly expanding Sports Car Club of America with a problem: where to hold races. At precisely the same time, Curtis LeMay,

head of Strategic Air Command, was having problems obtaining funds from Congress to improve conditions on the many air bases located around the country. The solution was a marriage of convenience, whereby the SCCA was allowed access to active SAC air bases to hold its race programmes. In return, the SAC base would receive the net profits from the event, which would be put into the Airmen's Living Improvement Fund. As a result of some initial financial success for the SAC bases, the scheme was also adopted by non-SAC bases together with regional clubs, with the same agreement in place. Complaints from airmen alerted Congressman Errett Scrivner to potential irregularities, and he ordered an audit to be conducted to ascertain precisely what it was costing the air bases to host the races. His findings led to the cessation of the races, ordered by Congress. The product of a long period of extensive research by the author, this book gives a fascinating insight into this two-year period, complemented by over 150 period pictures, many previously unpublished.

The Big Book of Tiny Cars Veloce Publishing Ltd

It took a great deal of determination on the part of women to sweep aside male resistance from the inner circles of the motoring world. A veritable saga with a wealth of illustrations spanning almost a century of motor racing. Over forty unique portraits of daring, brave women who took part in speed records events, rallies and Grand Prix races.

The 356 was the first Porsche model. The coupes and spyders were a great success throughout the world and continued to be so throughout the model's life. The story of the Porsche

356, and the racing and rallying cars that sprang from it, is detailed in this text. Dimensions: 250 x 207

Maximum Mini Veloce Publishing Ltd
Lasting six weeks and covering 16,000 miles from London to Mexico City via some of the most varying, tortuous and difficult terrain on three continents, the 1970 World Cup Rally was a unique high-speed event, attracting many serious works teams such as Ford and British Leyland. Despite the tremendous amounts spent choosing and developing new cars, completing months-long route surveys, and analyzing every detail of diets, oxygen provision, and the number of crew members, out of an entry of more than 100, only 23 cars made it to the finish. It was, and remains, the toughest rally of all time.

Runways & Racers Veloce Publishing Ltd
This book focuses solely on the cars derived from the classic Mini. Small GTs, sports cars, roadsters and fun cars: Mini-derivatives that changed the specialist motoring market completely in the early sixties, and new designs kept it busy for nearly four decades. From the well known Mini Marcos and Unipower GT that raced at Le Mans, to the very obscure but as exciting Coldwell GT or Sarcon Scarab, almost 60 cars are thoroughly researched, described and photographed in this book.

How to Draw & Paint Cars Veloce Publishing Ltd

First full history of the small/micro-caravan in the UK Fully illustrated with some rare photos Features layout plans Starts story at the beginning of car-pulled trailer caravan story Includes all imported models Shows Mini and other small classic cars and motorcycles pulling small caravans Includes the smallest modern micro caravans Nostalgic and informative A light-hearted

With descriptions of more than 12,000 newsletters in 4,000 different subject areas, this comprehensive resource is an invaluable research tool.

The Daily Mirror World Cup Rally 40 Veloce Publishing Ltd

MV Agusta's classic four-cylinder dominated Grand Prix racing for a decade from 1956. This magnificent engine was always at the heart of the MV Agusta, and it was this engine that created the legend.

Velocette Motorcycles - MSS to Thruxton Veloce Publishing Ltd

This comprehensive pictorial overview of Rover cars and car-derived vans covers the 60 years from 1945 to 2005. It describes and illustrates all of the great classic Rovers up to and including the SD1, and goes on to look at the models inherited from British Leyland that attracted Rover badges. It finishes with the models designed in conjunction with Honda; the later British-designed cars – and even the final City Rover. There is also consideration of some Rover models that were designed but, for various reasons, did not enter production, and can now only be seen as prototypes in museums. A title in Veloce's popular Pictorial History series, this book describes all of the postwar models with illustrations and technical data for each. *Japanese Micro-mini Automobiles* Veloce Publishing Ltd

This text charts the production of the Leningrad L-1 of 1931/32 up to the final examples produced in 2003. Featuring full specifications translated from the relevant primary sources in Russian and Chinese literature, this is a meticulous and unique account of Soviet limousines from 1930 to 2003.

Tinplate Toy Cars of the 1950s and 1960s from Japan Veloce Publishing Ltd

This book offers full colour photographs, descriptions and specifications of virtually unknown production micro trucks. Featured are rare ISO utility vehicles and Topolino Fiat vans, as well as more common production micro trucks from Autobianchi, Moto Guzzi, Vespa Ace and Diahatsu.

The A-Z of popular Scooters & Microcars Veloce Publishing Ltd

Childrens illustrated story featuring Molly (the classic) Mini. Molly has many adventures with other Minis and her pals Brandon and Joshua (two little boys) and her friend Minnie Mini. Today they find themselves at a surprise car show. Who will win?

Russian Motor Vehicles Arrow

From the 1940s to the 1960s, the

microcar posed a challenge to the large companies that mass-produced cars to uniform designs. The microcar was the opposite, produced by small entrepreneurial start-ups using quirky design concepts that offered motorists cheaper and more economical vehicles. This book is a beautifully illustrated history of the British microcar, from the early days of Bond and Reliant to the proliferation of micro marques during the 1950s and their demise during the 1960s. It explores many eccentric British concepts, comparing the cars to their influential European competitors, examining the social and economic reasons for the decline and disappearance of the microcar, but also saluting the signs of a microcar renaissance in the twenty-first century, this time from mainstream manufacturers.

Jaguar/Daimler XJ6, XJ12 & Sovereign Veloce Publishing Ltd

The Big Book of Tiny Cars presents entertaining profiles of automotive history's most famous—and infamous—microcars and subcompacts from 1901 to today. Illustrated with photos and period ads.
