What Climate Science Tells Us, What It Doesn't, and Why It Matters National Geographic Learning Now in its second edition, this best-selling book by Tom Kyte of "Ask Tom" fame continues to bring you some of the best thinking on how to apply Oracle Database to produce scalable applications that perform well and deliver correct results. Tom has a simple philosophy: you can treat Oracle as a black box and just stick data into it or you can understand how it works and exploit it as a powerful computing environment. If you choose the latter, then you'll find that there are few information management problems that you cannot solve quickly and elegantly. This fully revised second edition covers the developments up to Oracle Database 11g. Each feature is taught in a proof-by-example manner, not only discussing what it is, but also how it works, how to implement software using it, and the common pitfalls associated with it. Don't treat Oracle Database as a black-box. Get this book. Get under the hood. Turbo-charge your career. Fully revised to cover Oracle Database 11g Proof-by-example approach: Let the evidence be your guide Dives deeply

into Oracle Database's most powerful features

Cambridge Grammar for CAE and Proficiency provides complete coverage of the grammar needed for both CAE and Proficiency with plenty of exam practice at the same time. Grammar is presented in a listening context giving students the chance to hear it being used in realistic situations and making it easier to remember. It includes the full range of exam tasks from the Reading, Writing and Listening papers and shows how grammar knowledge is tested in each of these. Informed by the Cambridge Learner Corpus, grammar is presented in genuine contexts and the book covers the errors students really make.

The fundamental mathematical tools needed to understand machine learning include linear

algebra, analytic geometry, matrix decompositions, vector calculus, optimization, probability and statistics. These topics are traditionally taught in disparate courses, making it hard for data science or computer science students, or professionals, to efficiently learn the mathematics. This self-contained textbook bridges the gap between mathematical and machine learning texts, introducing the mathematical concepts with a minimum of prerequisites. It uses these concepts to derive four central machine learning methods: linear regression, principal component analysis, Gaussian mixture models and support vector machines. For students and others with a mathematical background, these derivations provide a starting point to machine learning texts. For those learning the mathematics for the first time, the methods help build intuition and practical experience with applying mathematical concepts. Every chapter includes worked examples and exercises to test understanding. Programming tutorials are offered on the book's web site.

Timothy T. Williams, Jr. is a leading national expert on police procedure and use of force. He has over 29 years of active law enforcement experience and over 40 years of experience working in the Criminal Justice System. Inside this book you'll get a sneak peak into Mr. William's extensive expert experience. Mr. Williams proudly served in the Los Angeles Police Department as a detective, ultimately ascending to the rank of Senior Detective Supervisor and retiring from the elite Robbery-Homicide Division. Mr. Williams is currently the founder and CEO of T.T. Williams, Jr. Investigations Inc., a company based in Los Angeles, California, that provides industry-leading expertise in cases throughout the United States related to police procedure, use of force, and wrongful convictions. Since the launch of his consultancy practice in 2003, he has provided expert testimony in more than 200 cases and analysis of over 1,200 cases, including several landmark cases such as the "Grim Sleeper" death penalty trial in Los Angeles and wrongful conviction cases such as the "Englewood Four" out of Chicago, Illinois. Most notably, Williams' expert analysis in the wrongful murder conviction of Kash D. Register helped to lead to the largest reported settlement, at that time, in an individual civil rights case in the history of Los Angeles, totaling \$16.7 million in restitution. Williams has been hired by some of the most recognizable names in law including The Innocence Project, The Cochran Firm, Carl Douglas, Mark Geragos, and Thomas Mesereau. Tim Williams, Jr. is an Oakland, California, native and has completed his required undergraduate Criminal Justice studies at California State University Los Angeles. He taught at Los Angeles City College in the Administration of Justice Department and is a guest lecturer at various legal and professional organizations. Mr. Williams consistently appears as an expert and contributor on various network, cable, and radio programs including 20/20, Good Morning America, CNN, CBS News, Fox News, and Inside Edition. Mr. Williams has numerous accolades and he is a nationally sought after speaker regarding police procedure, use of force, and wrongful conviction cases. In this book, you'll discover a deep dive on police procedure unlike anything you've ever read before.

Capitalist Nigger is an explosive and jarring indictment of the black race. The book asserts that the Negroid race, as naturally endowed as any other, is culpably a non-productive race, a consumer race that depends on other communities for its culture, its language, its feeding and its clothing. Despite enormous natural resources, blacks are economic slaves because they lack the 'devil-may-care' attitude and the 'killer instinct' of the Caucasian, as well as the spider web mentality of the Asian. A Capitalist Nigger must embody ruthlessness in pursuit of excellence in his drive towards achieving the goal of becoming an economic warrior. In putting forward the idea of the Capitalist Nigger, Chika Onyeani charts a road to success whereby black economic warriors employ the 'Spider Web Doctrine' – discipline, self-reliance, ruthlessness – to escape from their victim mentality. Born in Nigeria, Chika Onyeani is a journalist, editor and former diplomat.
