### Rich Dad's Who Took My Money?

ReadHowYouWant.com  
Outlines a strategy for attaining wealth by looking for business opportunities and investing wisely, rather than seeking security through employment. *ABCs of Buying Rental Property* RDA Press, LLC  
Many Americans dream of financial freedom, but they're stuck in dead-end jobs and don't know how to get there. You don't need to be one of them. If you invested \$35,000 in the stock market today, it could take 52 years for that investment to grow to \$1 million. But if you invested that same amount into one single-family \$140,000 rental property, it would only take 19 years. With just two rental properties, you could generate \$417,000 in profit in just 10 years. Skeptical? Good, because that's the first sign of a smart investor. This book will tackle that skepticism head on... and give you

confidence and a path to financial freedom. THIS BOOK WILL TEACH YOU HOW TO: - Secure your investment money - Find your ideal market--and a positive-cash-flow property - Efficiently manage your property - Handle your record keeping - Boost revenues and cut costs - File your taxes using a step-by-step process - Build your real estate portfolio

How You Can Achieve Financial Freedom in Five Years RDA Press, LLC  
Many people have million-dollar ideas. They're confident that their new product or service or innovation will make them rich and that all their dreams will come true. The problem is: Most people don't know how to turn their million-dollar idea into millions of

dollars. According to many social scientists, the most important thing in life is a person's social and professional network. In other words, the people around us--our associates, our team, our friends. The people we surround ourselves with--and the people we go to for advice and guidance--can mean the difference between success and failure. And as he taught in *Rich Dad Poor Dad*, if the people around you have a poor person's mindset, it's likely that you'll be, or stay, poor. Your team, in life and in business, will determine if your million-dollar idea will give you a million-dollar payday. In *More Important Than Money*, Robert teams up with his most trusted Advisors who contribute not only chapters on the strengths and talents they bring to the team, but offer candid and insightful individual Profiles and excerpts from each of the 14 Rich Dad Advisor Series books. Readers will meet all of Robert's Rich Dad Advisors and learn why they are among his most valuable assets.

*Using Your Banker's Money* RDA Press, LLC  
 Summary of Cash Flow Quadrant You can never have true freedom without financial freedom. Freedom may be free, but it has a price. Preface: What is Your Life's Goal? Finding your path in life is your goal in life. Your path is not your profession, how much money you make, your title, or your successes and failures. Finding your path means finding out what you were put here on this earth to do. What is your life's purpose? Why were you given this gift called life? And what is the gift you give back to life? Most people are programmed early in life to "Go to school and get a job." School is about finding a job in the E or S quadrant. It is not about finding your life's path. Trust your intuition, heart and have guts. Education is a process. To develop into a whole human being, we need mental, physical, emotional, and spiritual education. Traditional schools were primarily about developing students mentally. That is why so many students who do well in school, do not do well in real life, especially in the world of money. School programs students to be an

employee in the E or S quadrant. Traditional education is not the place for a person who wants to be an entrepreneur in the B and I quadrants. Become an entrepreneur in education. It seems that our paths in life are not found in our minds. Our path in life is to find out what is in our hearts. The shortcoming of traditional education. Millions of people leave school, only to be trapped in jobs they do not like. They know something is missing in life. Many people are also trapped financially, earning just enough to survive, wanting to earn more but not knowing what to do. Without awareness of the other quadrants, many people go back to school and look for new professions or pay raises in the E or S quadrant, unaware of the world of the B and I quadrants. Most addictions are attempts to find happiness in people's souls. Many "A" students get stuck in "analysis paralysis," studying every little detail, but failing to do anything. This "analysis paralysis" is caused by our educational system punishing students for making mistakes. If you think about it, "A" students are

"A" students simply because they made the fewest mistakes. The problem with that emotional psychosis is that, in the real world, people who take action are the ones who make the most mistakes and learn from them to win in the game of life. The reason so many people fail to achieve success is because they fail to fail enough times. One of the reasons so many people cling to job security is because they lack emotional education. They let fear stop them. Here is a Preview of What You Will Get: - A Full Book Summary - An Analysis - Fun quizzes - Quiz Answers - Etc Get a copy of this summary and learn about the book. [What the Rich Invest in, That the Poor and Middle Class Do Not!](#) Business Plus Although we have been successful in our careers, they have not turned out quite as we expected. We both have changed positions several times-for all the right reasons-but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great

children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying.

"Why should I put time into studying subjects I will never use in real life?" he protested. Without thinking, I responded, "Because if you don't get good grades, you won't get into college."

"Regardless of whether I go to college," he replied, "I'm going to be rich."

Written more than a century ago—The Richest Man In Babylon—is one of the greatest financial

books of all time. In language as simple as that of the Bible, this book provides many timeless lessons about spending, saving, and investing to build wealth that are as applicable today as when it was first written. The book is set in ancient Babylon, and follows the story of Arkad, the richest man in all of Babylon, imparting his wisdom to a younger man, Bansir, who wishes to become wealthy. It lays out the basics of personal finance - spend less than you earn, save 10% of your income, and invest wisely - in an engaging parable format (stories told to teach a lesson). The book teaches that if you follow these basic lessons, work hard, and continue improving your skills, you can build future wealth through passive streams of income.

That unceasing desire -- and especially a taste for underage girls -- resulted in sexual-abuse charges, to which he pleaded guilty and received a shockingly lenient sentence. Included here are police interviews with girls who have alleged sexual abuse by Epstein, as well as details of the investigation against him.
