...Through a compellingly human, at times absurdly humorous trash travelogue, Garbology reveals how government cooks the books to conceal the severity of our trashy ways, how the consumer economy is hijacked to encourage our costly love affair with waste, and how a new generation of waste-weary men and women are just saying no—and finding that our biggest roadblock to restoring prosperity and our planet just might be our trash cans.  interviews, and personal  
 stories, Humes tells the
