Multiplication & Division Quick Quizzes Ages 7-9: Prepare for school with easy home learning (Collins Easy Learning KS2) Collins

Helpful instruction and plenty of practice for your child to understand the basics of multiplication and division Understanding multiplying and dividing is essential for your child to do math problems with confidence. Practice Makes Perfect: Multiplication and Division gives your child bite-sized explanations of the subjects, with engaging exercises that keep her or him motivated and excited to learn. They can practice the problems they find challenging, polish skills they've mastered, and stretch themselves to explore skills they have not yet attempted. This book features exercises that increase in difficulty as your child proceeds through it. This book is appropriate for a 4th grade student working above his or her grade level, or as a great review and practice for a struggling 5th or 6th grader.

Multiplication and Division Bumper Book: Ages 7-9 Dorling Kindersley Ltd

A colorful workbook to help children learn addition and subtraction using the Math Mastery approach! It's time to master the world of math with this brand new workbook developed by experts to cover all the essential skills for children in the first stages of their math journey. Specifically designed for children aged 6-7, this math exercise book can gently help your child develop a knowledge of multiplying and dividing—including sharing and making equal groups, using a range of different methods. Let Math — No Problem! open your eyes to the wonderful world of numbers! So what are you waiting for? Dive straight in to discover: - Topics include sharing and grouping, multiplying by 2, 5 and 10, dividing by 2 and 10, word problems. - Character-led learning with fun and friendly illustrations. - Comprehensive and thorough coverage of key concepts. - Helpful hints for extra practice. Heard of Math Mastery but don't know where to begin? Don't worry, DK has got you covered! Math Mastery is a transformational approach to teaching mathematics that was developed in Singapore and is now used around the world, including in thousands of schools across the US. Children are taught multiple methods to solve math problems, enabling them to gain a thorough and adaptable understanding of topics, making it easier for them to apply their knowledge to different scenarios. Each topic is studied in depth to develop a secure understanding of math concepts. This leads to greater progress in math learning, as topics are well understood and therefore don't need to be revised in great detail, meaning each new concept builds on prior learning. Based on this widely successful approach, this wonderful workbook is full of top tips led by appealing characters who offer useful guidance to parents and children alike with the goal of making

learning math both accessible and interesting. This workbook is part of a new series developed in partnership with the award-winning educational publisher Math — No Problem! The books encourage a deep knowledge of core math concepts without fostering a reliance on memorization or rote learning. A must-have math book for children aged 6-7 at a Grade 1 level, as well as for adults who wish to become more familiar with math taught in schools, to better support their children at home. From self-check quizzes to sharing and grouping, this helpful workbook covers it all while incorporating an inclusive approach which builds self-confidence so that no child feels they 'can't do math'. At DK, we believe in the power of discovery. So why not explore the rest of the workbooks in our Math — No Problem! Master Math At Home series? Each workbook can be bought individually or as part of a collection, specifically targeted to early learners aged 6-7 at a Grade 1 level. Join the geometry fun with Math — No Problem! Geometry and Shape, Grade 1 Ages 6-7, or have fun finding fractions with Math — No Problem! Fractions, Grade 1 Ages 6-7. It's as easy as 1, 2, 3!
