On September 12, 1609,
Henry Hudson first set
foot on the land that
would become Manhattan.
Today, it's difficult to

imagine what he saw, but for more than a decade, landscape ecologist Eric Sanderson has been working to do just that. *Mannahatta: A Natural History of New York City* is the astounding result of those efforts, reconstructing in words and images the wild island that millions now call home. By geographically matching an 18th-century map with one of the modern city, examining volumes of historic documents, and collecting and analyzing scientific data, Sanderson

re-creates the forests of Times Square, the meadows of Harlem, and the wetlands of downtown. His lively text guides readers through this abundant landscape, while breathtaking illustrations transport them back in time. *Mannahatta* is a groundbreaking work that provides not only a window into the past, but also inspiration for the future.

The perfect match of content and format: Craft

supplies, a full-color how-to book and nobody-else-but-Klutz creativity, all packed in a sturdy, reusable plastic jar with a screw-top lid and a rope handle. The whole package is incredibly bright, cheerful, easy to stack and display, and completely shopwear-proof. Start with an empty Klutz Bucket. Fill with wooden animal shapes. Add eight acrylic craft paints, one brush, a fine point black marker and a 40-page Klutz book of full-color, paint-this-critter inspiration. And then,

right at the end, toss in a good supply of wiggle eyes. End result? A zoo in a bucket. With it you can paint 24 wooden die-cut blanks into things like Technicolor tigers or polka-dotted pandas, paying absolutely no attention whatsoever to the way they're actually supposed to look.

Often the church is accused of being so embedded in the culture that effective prophecy leveled at the culture is impossible. But this book illustrates that there was a time and a place where the church community was faithful to its mission as the body of Christ, as church leaders led, people lifted high the cross, and they marched into the uncertainty that still

prevails. Here is a time and place where the call to risky discipleship was answered not with whimpers, whines, and excuses, but with the power of faithful Christians living out their call. This book illustrates what it can mean to faithfully answer the call to discipleship and God's service. Many people wonder if they would be able to stand up for their faith if it meant great personal sacrifice or the sacrifice of people they love. They wonder what they would risk for their

faith, if anything. In the United States where cost/benefit analysis is a popular way to assess risk, many Christians wonder if they might not have to stand alone, because too many see the risks as too costly. As suggested by the title, this book draws upon a collection of sermons and addresses given by Peter Storey in a variety of contexts between 1966 and 1993. The original audiences ranged from the all-white Central Methodist Church in Johannesburg, to the

South African Council of Churches, to the nation of South Africa, and to the world. All of these sermons and addresses are directly related to specific historical events: security police confrontations, beatings, and tear-gassings in churches around the country of South Africa; an imposed State of Emergency; the murder of 14-year-old Stompie Sepie by Winnie Mandela's thugs; and the violent jockeying for power between Mandela's African National Congress,

Chief Mangosutho Buthe's Inkatha Movement, and F. W. de Klerk's regime. The book offers the full perspective of what it means to speak truth, empower people to stand for the truth, and to pastor souls during times when living truth seems almost impossible. Key Features: 1. Foreword by Desmond Tutu 2. 15 chapters, each including a brief description of the original context, the sermon and its connection with the present, and a prayer 3. Epilogue by Will Willimon

Beans 20 Ways Tyndale House Publishers, Inc.
