The Book of Treasure Spirits Mohr Siebeck
 Twenty-three years ago, Sam and Dean Winchester lost their mother to a demonic supernatural force. Following the tragedy, their father, John, set out to teach his boys everything about the paranormal evil that lives in the dark corners and on the back roads of America . . . and how to kill it. Fans of the blockbuster television phenomenon can rejoice! A one-of-a-kind compilation of all of Sam and Dean's demon-busting knowledge, *The Supernatural Book of Monsters, Spirits, Demons, and Ghouls* contains illustrations and detailed descriptions that catalogue the more than two dozen otherworldly enemies that most people believe exist only in folklore, superstition, and nightmares: vampires, ghosts, revenants, reapers, and even bloody clowns. You'll find within these pages Sam and Dean's notes, observations, and memories interwoven with sections of John Winchester's invaluable journal, making this book the perfect companion to every thrilling episode—and an essential

weapon in the secret war against the hidden creatures of the darkness!

A Companion to Death, Burial, and Remembrance in Late Medieval and Early Modern Europe, c. 1300-1700 Penn State Press

Prints, drawings, documents, and text illuminate the development of the occult sciences to the nineteenth century

The Old and the New Magic DigiCat

This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1976.

Courting Disaster Cambridge University Press

Early Greek Alchemy, Patronage and Innovation in Late Antiquity provides an example of the innovative power of ancient scholarly patronage by looking at a key moment in the creation of the Greek alchemical tradition. New evidence on scholarly patronage under the Roman empire can be garnered by analyzing the

descriptions of learned magoi in several texts from the second to the fourth century CE. Since a common use of the term magos connoted flatterer-like figures (kolakes), it is likely that the figures of "learned sorcerers" found in texts such as Lucian's *Philopseudes* and the apocryphal *Acts of Peter* captured the notion that some client scholars exerted undue influence over patrons. The first known author of alchemical commentaries, Zosimus of Panopolis (c. 300 CE), presented himself neither as a magos nor as an alchemist. In his treatises, he rather appears as a Christian scholar and the client of a rich woman named Theosebeia. In three polemical letters to his patroness, Zosimus attempted to discredit rival specialists of alchemy by describing them as magoi and demon-worshippers and by equating their techniques with Egyptian temple practice. In a subtler attempt to edge out his competitors, Zosimus pointed to their limited education and suggested that true alchemy could only be acquired by a meticulous interpretation of Greek alchemical texts. Extant evidence thus suggests that alchemical texts were first introduced among other Greek scholarly traditions when Zosimus annexed Egyptian temple rituals into the ambit of *paideia* thanks to the support and venue provided by his patroness.

A Companion to Philosophy in the Middle Ages John Wiley & Sons

Jewish customs and traditions about death, burial and mourning are numerous, diverse and intriguing. They are considered by many to have a respectable pedigree that goes back to the earliest rabbinic period. In order to examine the accurate historical origins of many of them, an international conference was held at Tel Aviv University in 2010 and experts dealt with many aspects of the topic. This volume includes most of the papers given then, as well as a few added later. What emerges are a wealth of fresh material and perspectives, as well as the realization that the high Middle Ages saw a set of exceptional innovations, some of which later became central to traditional Judaism while others were gradually abandoned. Were these innovations influenced by Christian practice? Which prayers and poems reflect these innovations? What do the sources tell us about changing attitudes to death and life-after death? Are tombstones an important guide to historical developments? Answers to these questions are to be found in this unusual, illuminating and readable collection of essays that have been well documented, carefully edited and well indexed.

Early Greek Alchemy, Patronage and Innovation in Late Antiquity Independently Published

This handbook surveys and describes the illustrated Mixtec manuscripts that survive in Europe, the United States and Mexico.

What is a grimoire? The word has a familiar ring to many people, particularly as a consequence of such popular television dramas as *Buffy the Vampire Slayer* and *Charmed*. But few people are sure exactly what it means. Put simply, grimoires are books of spells that were first recorded in the Ancient Middle East and which have developed and spread across much of the Western Hemisphere and beyond over the ensuing millennia. At their most benign, they contain charms and remedies for natural and supernatural ailments and advice on contacting spirits to help find treasures and protect from evil. But at their most sinister they provide instructions on how to manipulate people for corrupt purposes and, worst of all, to call up and make a pact with the Devil. Both types have proven remarkably resilient and adaptable and retain much of their relevance and fascination to this day. But the grimoire represents much more than just magic. To

understand the history of grimoires is to understand the spread of Christianity, the development of early science, the cultural influence of the print revolution, the growth of literacy, the impact of colonialism, and the expansion of western cultures across the oceans. As this book richly demonstrates, the history of grimoires illuminates many of the most important developments in European history over the last two thousand years.

The Mixtec Pictorial Manuscripts Courier Corporation

A fascinating study of natural and demonic magic within the broad context of medieval culture.

Theater as Metaphor OUP Oxford

"A dense and scholarly book about . . . the relationship between the Nazi party and the occult . . . reveals stranger-than-fiction truths on every page."—Daily Telegraph The Nazi fascination with the occult is legendary, yet today it is often dismissed as Himmler's personal obsession or wildly overstated for its novelty. Preposterous though it was, however, supernatural thinking was inextricable from the Nazi project. The regime enlisted astrology and the paranormal, paganism, Indo-Aryan mythology, witchcraft, miracle weapons, and the lost kingdom of Atlantis in reimagining German politics and society and recasting German science and religion. In this eye-opening history, Eric Kurlander reveals how the Third Reich's relationship to the supernatural was far from straightforward. Even as popular occultism and superstition were intermittently rooted out, suppressed, and outlawed, the Nazis drew upon a wide variety of occult practices and esoteric sciences to gain power, shape propaganda and policy, and pursue their dreams of racial utopia and empire. "[Kurlander] shows how swiftly irrational ideas can take hold, even in an age before social media."—The Washington Post "Deeply researched, convincingly authenticated, this extraordinary study of the magical and supernatural at the highest levels of Nazi Germany will astonish."—The Spectator "A trustworthy [book] on an extraordinary subject."—The Times "A fascinating look at a little-understood aspect of fascism."—Kirkus Reviews "Kurlander provides a careful, clear-headed, and exhaustive examination of a subject so lurid that it has probably scared away some of the serious research it merits."—National Review

Magical Manuscripts in Early Modern Europe Cambridge University Press

The papers of the present volume investigate the potential of the metaphor of life as theater for literary, philosophical, juridical and epistemological discourses from the Middle Ages through modernity, and focusing on traditions as manifold as French, Spanish, Italian, German, Russian and Latin-American.

The Troll Inside You BRILL

This companion volume seeks to trace the development of ideas relating to death, burial, and the remembrance of the dead in Europe from ca.1300-1700.

Aqueles que não provaram superstições mágicas podem aqui encontrá-los prontos para suas mãos. Em resumo, neste livro são mantidos os princípios de transportes mágicos . Pode ser concedido de imediato que o compromisso seja escrupulosamente cumprido; o que o operador deve fazer e como deve executá-lo, a fim de atrair espíritos para o discurso , são assuntos expostos tão claramente que o homem que viaja não precisa errar. Assumindo o cargo sacerdotal do operador, ou um padre cúmplice, é tudo

tão simples que o fracasso não poderia muito bem ser atribuído a um erro de sua parte. O procedimento é dividido em duas partes - um método geral para a evocação dos Espíritos do Ar, que são indubitavelmente demônios, e um conjunto de conjurações angélicas próprias para cada dia da semana. A segunda seção provavelmente pertence ao departamento de Magia Branca, pois as inteligências envolvidas são boas e ótimas, embora seus escritórios sejam mistos e confusos, incluindo a descoberta de tesouros, a detecção de segredos, o fomento da guerra, a abertura de fechaduras e ferrolhos. , adquirindo o amor das mulheres, inclinando os homens ao luxo e semeando o ódio e o mau pensamento. Obviamente, Magia Branca desse tipo é muito mais negra do que é pintada. *Heptameron*: ou, elementos mágicos Pietro d Abano, também conhecido como Petrus de Apono, Petrus Aponensis ou Pedro de Abano [1] (c. 1257 [2] [3] - 1316), foi um filósofo italiano, astrólogo e professor de medicina em Pádua. [4] Ele nasceu na cidade italiana de onde ele leva seu nome, agora Abano Terme. Ganhei fama escrevendo *Conciliator Differentiarum*, também entre *Philosophos* e *Medicos Versantur*. Ele acabou sendo acusado de heresia e ateísmo, e veio antes da Inquisição. Ele morreu na prisão em 1315 (algumas fontes dizem 1316 [5]) antes do final de seu julgamento.

Heptameron: Ou, Elementos Mágicos punctum books

Containing chapters by some of the world's leading experts and scholars on the subject, this book provides a broad context for intercultural competence. Including the latest research on intercultural models and theories, it presents guidance on assessing intercultural competence through the exploration of key assessment principles.

Hitler's Monsters SAGE

A History of Science, Magic and Belief is an exploration of the origins of modern society through the culture of the middle ages and early modern period. By examining the intertwined paths of three different systems for interpreting the world, it seeks to create a narrative which culminates in the birth of modernity. It looks at the tensions and boundaries between science and magic throughout the middle ages and how they were affected by elite efforts to rationalise society, often through religion. The witch-crazes of the sixteenth and seventeenth century are seen as a pivotal point, and the emergence from these into social peace is deemed possible due to the Scientific Revolution and the politics of the early modern state. This book is unique in drawing together the histories of science, magic and religion. It is thus an ideal book for those studying any or all of these topics, and with its broad time frame, it is also suitable for students of the history of Europe or Western civilisation in general.

Doctors Red Globe Press

The Munich Manual on Demonic Magic is a Medieval grimoire on black magic and necromancy that provides a comprehensive guide to summoning and commanding demons. The rituals range from simple incantations to more complex ceremonies, enabling the magician to gain supernatural powers and knowledge from entities such as Satan, Lilith, Astaroth, and Samael. This edition includes the complete, unabridged text translated from Latin into English, along with the 44 illustrations of magic circles and

symbols included in the original manuscript.

The Supernatural Book of Monsters, Spirits, Demons, and Ghouls BoD – Books on Demand

What do medieval Icelanders mean when they say "troll"? What did they see when they saw a troll? What did the troll signify to them? And why did they see them? The principal subject of this book is the Norse idea of the troll, which the author uses to engage with the larger topic of paranormal experiences in the medieval North. The texts under study are from 13th-, 14th-, and 15th-century Iceland. The focus of the book is on the ways in which paranormal experiences are related and defined in these texts and how those definitions have framed and continue to frame scholarly interpretations of the paranormal. The book is partitioned into numerous brief chapters, each with its own theme. In each case the author is not least concerned with how the paranormal functions within medieval society and in the minds of the individuals who encounter and experience it and go on to narrate these experiences through intermediaries. The author connects the paranormal encounter closely with fears and these fears are intertwined with various aspects of the human experience including gender, family ties, and death. *The Troll Inside You* hovers over the boundaries of scholarship and literature. Its aim is to prick and provoke but above all to challenge its audience to reconsider some of their preconceived ideas about the medieval past.

Spells of the Grimoires Springer

DigiCat Publishing presents to you this special edition of "Magic, Stage Illusions and Scientific Diversions, Including Trick Photography" by Albert A. Hopkins. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks. DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature.

Forbidden Rites Springer

The Cambridge Book of Magic is an edition of a hitherto unpublished sixteenth-century manuscript of necromancy (ritual magic), now in Cambridge University Library. Written in England between 1532 and 1558, the manuscript consists of 91 'experiments', most of them involving the conjuration of angels and demons, for purposes as diverse as knowing the future, inflicting bodily harm, and recovering stolen property. However, the author's interests went beyond spirit conjuration to include a variety of forms of natural magic. The treatise drew on astrological image magic and magico-medical texts, and the author had a particular fascination with the properties of plants and herbs. The Cambridge Book of Magic gives an insight into the practice and thought of one sixteenth-century magician, who may have been acting on behalf of clients as well as working for his own benefit.
