 Business Start-up is a two-level course for beginners and false beginners who need English for their work. It takes low-level students up to the point where they can start preparing for the BEC Preliminary Examination (early B1 level) and provides a solid foundation for further learning. The Student's Books bring reality to even the most basic levels of language learning through the presentation of natural language in authentic contexts, a regular focus on real companies and products, and practice in the communication skills that professionals really need. Audio recordings for the rich listening material are available on separate CDs. The A5 size Workbooks come with a CD-ROM/Audio CD offering self-study grammar and vocabulary activities, as well as listening practice on the move. The Teacher's Books include full classroom notes, additional communicative practice activities and regular progress tests, plus an end of course/placement test.

This publication highlights the need for test developers to provide clear explanations of the ability constructs which underpin tests offered in the public domain. An explanation is increasingly required, if the validity of test score interpretation and use are to be supported both logically, and with empirical evidence. The book demonstrates the application of a comprehensive test validation framework which adopts a socio-cognitive perspective. The framework embraces six core components which reflect the practical nature and quality of an actual testing event. It examines Cambridge ESOL writing tasks from the following perspectives: Test Taker, Cognitive Validity, Context Validity, Scoring Validity, Criterion-related Validity and Consequential Validity. The authors show how an understanding and analysis of the framework and its components in relation to specific writing tests can assist test developers to operationalise their tests more effectively, especially in relation to criterial distinctions across test levels.
