### **Business Secrets from**

### **the Bible** Multnomah

On the road to becoming a successful entrepreneur, Bob Diener confronted a lot of tough issues: how to treat employees, how to please customers, whether or not to cut corners, whether to follow the temptation of an unsavory deal... Although he had no formal business training, Bob found solutions to all these issues and reached the top using a simple strategy that is available to anyone. His secret? Careful study of "the best guidebook to running a

successful business ever written”: the Bible. Difficult dilemmas become easy when viewed from the biblical perspective. “Our work is meaningless unless to do good,” counsels the Book of Ecclesiastes. Companies that abide by the Bible's rules of business tend to be the ones that prosper long term. Companies that cheat their workers and partners, defraud their customers, and operate unethically don't stay in business very long. You too can become a

successful entrepreneur by following the tips, strategies, and biblical principles outlined in this exploration of best practices for market research, labor management, business negotiations, risk mitigation, watching the bottom line, and, perhaps most important of all, leaving a lasting legacy. Bob Diener and his partner David Litman created the company that became hotels.com, which pioneered hotel distribution online. When Bob and his partner took

the company public in 2000, the stock price soared from \$16 to \$90 in one of the most successful IPOs ever. Having gone on to cofound getaroom.com, Bob is a familiar presence on national media outlets, offering his sage advice on the travel industry. *Ancient Lessons for Success in Business, Life, Love, and More* Posey-Wilson Publishing Group The study of the Bible is a lifelong pursuit and there are many teachings within its veiled text. Bringing forward a fresh and

relevant message about our purpose, and how to make life better, kabbalistic scholar, Michael Berg, imparts wisdom from decades of research and sources unique to his lineage. Gems of insight from the Zohar, Rav Berg, Rav Ashlag, Rav Isaac Luria (the Ari) as well as other known kabbalists are complemented by lessons from the ages. Kabbalists believe that the Bible is not just a book of stories or an historical archive of events: It is a guide to understanding the nature

of this world, of life, and of the planet. Although these events physically took place thousands of years ago, there are transcendent fundamentals hidden within each tale. Michael drills through complex concepts to reveal essential truths. He utilizes biblical texts to expand our perception to see God in everything and everyone. Although Michael shares ideas that can awaken a desire for transformation, the gift he offers is another view of the Bible and its secrets.

Understanding how the human mind works is vital to a successful business, since being able to predict how and why people behave the way they do

will fuel your sales, marketing, operations, and finances, and will help you understand your own mindset as a business owner as well as the thoughts of your customers and employees. As you're reading these chapters, every once in a while, think about how a neuroscientist might possibly approach your business. But if you forget this section completely and focus just on the business tools without even thinking about the neuroscience behind

them, you'll still get valuable lessons that will fuel your business. I designed these tools in such a way that, whether you understand how they work or not, they will still get you the results. Arman Sadeghi's background is in neuroscience with a degree in molecular and cell biology and neurobiology, and he enjoys the way neuroscience is involved in just about every aspect of life, especially in business.
