The challenges of ensuring the future and development of the discipline, especially

after a time of crisis, is equally unprecedented. A comprehensive overview of the global picture of best practices as well as research in recent times are needed in the field of language education, particularly in higher education settings. The changing nature of language education in terms of its policy, curriculum design, methodology, and innovation is

an essential discussion to advance the field. It is critical to explore how a more collaborative, global, and interdisciplinary mindset, as well as technologically driven approaches have emerged through recent years and how it will continue to shape the future development in the field. Trends and Developments for the Future of Language Education in Higher Education captures the

current trends and ongoing development within language education through a global picture of the best practices as well as the latest research on language education in higher education settings. The chapters cover changes in policy, curriculum design, methodology, and innovation in the modern language education landscape. While focusing on the current

situation of language education and the changes that it has been undergoing, this book also provides information on future development and the overall outlook of language education. This book is ideal for teachers, instructional designers, curricula developers, inservice and preservice teachers, administrators, teacher educators, practitioners, researchers, academicians,

and students looking for an overview of the current position of language education in higher education.
