From the day that French explorer Robert Cavalier de La Salle launched the Griffin in 1679 to the 1975 sinking of the celebrated Edmund Fitzgerald, thousands of commercial ships have sailed on the vast and perilous waters of the Great Lakes. In a harbinger of things to come, on the return leg of its first trip in late summer 1679, the Griffin disappeared and has never been seen again. In the centuries since then, the records show that an alarming number of shipwrecks have occurred on the Great Lakes. If vessels that wrecked but were later repaired and returned to service are included, the number certainly swells into the thousands. Most did not mysteriously vanish like the Griffin. Instead, they suffered the occupational hazards of every lake boat: collisions, groundings, strands, fires, boiler explosions, and capsizes. Many of these disasters took the lives of crews and passengers. The fearsome wrath of the storms that brew over the Great Lakes has challenged and defeated some of the staunchest vessels constructed in the shipyards of port cities along the U.S. and Canadian lakeshores. Here Richard Gebhart tells the tales of some of these ships and their captains and crews, from their launches to their sad demises—or sometimes, their celebrated retirements. This volume is a must-read for anyone intrigued by the maritime history of the Great Lakes.

Grace and her friends must protect a newly hatched dragon from mysterious evildoers. When Grace moves to Hong Kong with her mom and new stepdad, her biggest concern is making friends at

her fancy new boarding school. But when a mysterious old woman gifts her a dragon egg during a field trip, Grace discovers that the wonderful stories of dragons she heard when she was a young girl might actually be real—especially when the egg hatches overnight. The dragon has immense powers that Grace has yet to understand. And that puts them both in danger from mysterious forces intent on abusing the dragon's power. And now it's up to Grace and her school friends to uncover the sinister plot threatening the entire city!

A New York Times Notable Book of the Year, winner of the Southern Book Critics Circle Award and the Lillian Smith Award. An American epic of science, politics, race, honor, high society, and the Mississippi River, *Rising Tide* tells the riveting and nearly forgotten story of the Great Mississippi Flood of 1927. The river inundated the homes of almost one million people, helped elect Huey Long governor and made Herbert Hoover president, drove hundreds of thousands of African Americans north, and transformed American society and politics forever. The flood brought with it a human storm: white and black collided, honor and money collided, regional and national powers collided. New Orleans's elite used their power to divert the flood to those without political connections, power, or wealth, while causing Black sharecroppers to abandon their land to flee up north. The states were unprepared for this disaster and failed to support the Black community. The racial divides only widened when a white officer killed a Black man for refusing to return to work on levee repairs after a sleepless night of work. In the powerful prose of *Rising Tide*, John M. Barry removes any remaining veil that there had been equality in the South. This flood not only left millions of people ruined, but further emphasized the racial inequality that have continued even to this day.

On the bloody battlefield at Chancellorsville lay a prostrate form. As General Joe Hooker rode up, he asked the officers gathered around, "Whom have you got there, gentlemen?" When told it was Major-General Berry, he got off his horse, knelt, kissed the young general's forehead, and wept bitterly. Hiram Berry was a self-made man and one of the promising young generals of the American Civil War. He led from the front and played significant roles in many battles. Berry's decisive action at the Battle of Williamsburg was essential to General Hooker. Berry immediately

knew how bad he was hit and merely said, "My wife and child."

Read the story of this extraordinary soldier of the American Civil War. For the first time, this long-out-of-print book is available as an affordable, well-formatted book for e-readers and smartphones. Be sure to LOOK INSIDE or download a sample.

Is it possible to avoid life's storms? Do I have control over what happens to me, or will I be swallowed up by the waves of trouble that wash over me? Why do I have to experience hardships and trouble? Where is Jesus when I am suffering? These questions and more are discussed in this inspirational and thought-provoking book. Some storms are minor and cause little to no damage. Other storms are devastating and have the potential to leave long-lasting damage. Whether storms are big or small, no one gets through this life without weathering storm damage. Storms tend to shape the life of the individual for better or worse. As you will discover, you are not a helpless bystander. You do not have to be a victim to whatever happens to you. You can overcome. There are biblical principles that determine the outcome of storms. The Bible has many answers to life's problems. The author walks you through the scriptures that provide instruction to navigate your way when the view is obstructed from storm damage. Although Jesus is always present and always sees you, it may not be easy to see Jesus through difficulties. As you read, you will learn to see life more from God's perspective which will in turn enable you to see Jesus in the storm.

The horror of Hurricane Katrina is brought vividly to life in this fictional account of a boy, a dog, and the storm of the century. Barry's family tries to evacuate before Hurricane Katrina hits their home in New Orleans. But when Barry's little sister gets terribly sick, they're forced to stay home and wait out the storm. At first, Katrina doesn't seem to be as bad as predicted. But overnight the levees break, and Barry's world is literally torn apart. He's swept away by the floodwaters, away from his family. Can he survive the storm of the century -- alone?

In a city overwhelmed with murder and mayhem, the last homicide before a Category 5 hurricane wipes out New Orleans is quickly forgotten and remains unsolved. Until now. Calling to mind Chinatown's Jake Gittes or Chandler's Philip Marlowe comes a new kind of private detective—a mixed-martial arts coach and bare-knuckled former cop who investigates a curious missing persons/murder case. The cold trail quickly heats up, propelling

him into a battle of wits and brawn with the deadliest killers operating in the apocalyptic, post-hurricane ruins of New Orleans. With no forensic evidence, a destroyed crime scene, and no corpse, Cliff St. James, who's practically homeless and on the verge of bankruptcy, tenaciously navigates the gritty aftermath of a city that's barely functioning. The more layers of deceit he peels away surrounding the case, the grander is the conspiracy that comes into focus, placing him squarely in the cross-hairs of those who specialize in remaining unknown.
