This volume explores the instructional use of creative writing in secondary and post-secondary contexts to enhance students' language proficiency and expression in English as a second or foreign language (ESL/EFL). Offering a diverse range of perspectives from scholars and practitioners involved in English language teaching (ELT) globally, *International Perspectives on Creative Writing in Second Language Education* tackles foundational questions around why fiction and creative writing have been traditionally omitted from ESL and EFL curricula. By drawing on empirical research and first-hand experience, contributors showcase a range of creative genres including autobiography, scriptwriting, poetry, and e-Portfolios, and provide new insight into the benefits of second language creative writing for learners' language proficiency, emotional expression, and identity development. The volume makes a unique contribution to the field of second language writing by highlighting the breadth of second language users throughout the world, and foregrounding links between identity, learning, and ESL/EFL writing. This insightful volume will be of particular interest to postgraduate students, researchers, and academics in the fields of ESL/EFL learning, composition studies, and second language acquisition (SLA). Those with a focus on the use of creative writing in classrooms more broadly, will also find the book of interest. ["ECEG2016-Proceedings of 16th European Conference on e-Government ECEG 2016"](#)
