AGUIRRE HANCOCK

An Anthropology of Anthropology
 Academic Studies PPress
 Inequality is currently gaining considerable attention in academic, policy, and media circles. From Thomas Piketty to Robert Putnam, there is no shortage of economic, sociological, or political analyses. But what does anthropology, with its focus on the qualitative character of relationships between people, have to offer? Drawing on current scholarship and illustrative ethnographic case studies, McGill argues that anthropology is particularly well suited to interrogating global inequality, not just within nations, but across nations as well. Brief, accessibly written, and peppered with vivid ethnographic

examples that bring contemporary research to life, *Global Inequality* is an introduction to the topic from a unique and important perspective.

Ebook: Sociology: A Brief Introduction ABC-CLIO

Can today's college students confront race relations issues directly and make positive changes? Yes, they can. This book provides students with a fresh, practical approach to address these serious issues—as individuals and as members of groups—and set off a new positive revolution in race and ethnic relations.

- Presents brand-new race and ethnic relations solution strategies for college students and universities in the United States
- Carefully investigates several theoretical frameworks to provide readers with a better understanding of the numerous issues associated with race

relations • Discusses a number of culturally sensitive topics associated with race and ethnic relations, such as race and intelligence, affirmative action programs, discrimination, Black Lives Matter, and immigration policies

Anthropology, 12/E iUniverse

The new tenth edition of Kottak's best selling text for cultural anthropology continues to offer a holistic introduction to cultural anthropology that approaches the course from a four-field perspective. The new, tenth edition is a major revision offering many new and exciting features that build on the strengths of this approach. The text has two new themes - "Bringing It All Together" and "Understanding Ourselves." The "Bringing it All Together" theme, emphasizing anthropology's integrated, comparative and four-field nature, can be found in new

"Bringing it All Together" essays that show how anthropology's subfields and dimensions combine to interpret and explain a common topic.

Culture and Global Change ABC-CLIO
THE ESSENCE OF ANTHROPOLOGY features an experienced and diverse author team with expertise in all subfields of anthropology. With an eye to visual and written clarity, the authors present anthropology from an integrated, holistic perspective. They use three unifying themes as a framework to tie the book together and keep students focused: systemic adaptation to emphasize that every culture, past and present, is an integrated and dynamic system of adaptation; biocultural connections that highlight the integration of human culture and biology in the steps humans take to meet the challenges of survival; and the emergence of globalization and its disparate impact on peoples and cultures around the world. Pedagogical elements support these main themes and give deeper insight into the meaning and relevance of a wide range of topics covered in the general narrative by tying examples to behavior today. Insightful questions foster critical thinking, additional Visual Counterpoints widen the book's array of compare-and-contrast examples, and a new Digging into Anthropology feature provides a hands-on approach to anthropological methods by giving active learning opportunities related to each chapter's content. In addition, the authors have broadened viewpoints to offer explanations and examples from different points of view. "This concise, student-friendly, current introduction to cultural anthropology carefully balances coverage of core topics and contemporary changes in the field. *Mirror for Humanity* is a perfect match for cultural anthropology courses that use readings or ethnographies along with a main text." --Amazon.

Mirror for Humanity Springer Nature
This volume presents new theoretical approaches, methodologies, subject pools, and topics in the field of environmental anthropology. Environmental anthropologists are increasingly focusing on self-reflection - not just on themselves and their impacts on environmental research, but also on the reflexive qualities of their subjects, and the extent to which these individuals are questioning their own environmental behavior. Here,

contributors confront the very notion of "natural resources" in granting non-human species their subjectivity and arguing for deeper understanding of "nature," and "wilderness" beyond the label of "ecosystem services." By engaging in interdisciplinary efforts, these anthropologists present new ways for their colleagues, subjects, peers and communities to understand the causes of, and alternatives to environmental destruction. This book demonstrates that environmental anthropology has moved beyond the construction of rural, small group theory, entering into a mode of solution-based methodologies and interdisciplinary theories for understanding human-environmental interactions. It is focused on post-rural existence, health and environmental risk assessment, on the realm of alternative actions, and emphasizes the necessary steps towards preventing environmental crisis.

On Being Different provides an up-to-date, comprehensive, and interdisciplinary account of diversity and multiculturalism in the United States and Canada. Kottak and Kozaitis clarify essential issues,

themes, and topics in the study of diversity, including ethnicity, religion, gender, and sexual orientation. The book also presents an original theory of multiculturalism, showing how human agency and culture work to organize and change society. The authors use rich and varied ethnographic examples, from North America and abroad, to help students apply the material to their own lives, and thus gain a better understanding of diversity and multiculturalism.

Race and Ethnic Relations on Campus: Understanding, Empowerment, and Solutions for College Students UCL Press
A leading name in anthropology, Conrad Philip Kottak continues to define student learning in the cultural anthropology course. Cultural Anthropology offers an up-to-date holistic introduction to anthropology from the four-field perspective. Key themes of appreciating the experiences students bring to the classroom, appreciating human diversity, and appreciating the field of anthropology are showcased throughout the text. The program presents anthropology's core concepts and also demonstrates anthropology's relevance to the 21st-century world we inhabit. Revisions to the 18th edition of Cultural Anthropology were extensively informed by student data, collected anonymously by McGraw-Hill's adaptive learning system. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.

Transcending Architecture McGraw Hill
The Handbook of Methods in Cultural Anthropology, now in its second edition, maintains a strong benchmark for understanding the scope of contemporary anthropological field methods. Avoiding divisive debates over science and humanism, the contributors draw upon both traditions to explore fieldwork in practice. The second edition also reflects major developments of the past decade, including: the rising prominence of mixed methods, the emergence of new technologies, and evolving views on ethnographic writing. Spanning the chain of research, from designing a project through methods of data collection and interpretive analysis, the Handbook features new chapters on ethnography of online communities, social survey research, and network and geospatial analysis. Considered discussion of ethics, epistemology, and the presentation of

research results to diverse audiences round out the volume. The result is an essential guide for all scholars, professionals, and advanced students who employ fieldwork.

The book *Dreams, Revelations, and Manifestations* is a continuation of the book: *A Dreamer's Journey*, written several years ago, and is an expansion and enlargement of the authors' understanding, research, and experiences in the areas of dreams, revelations, and manifestations. This book seeks to encourage and assist the reader, as they seek out their own path, and provide tools, information, and a road map for experiencing their own cosmic experiences, links and understanding in these realms.

The Essence of Anthropology Routledge
Focused on the appreciation of anthropology, the new edition of *Cultural Anthropology: Appreciating Cultural Diversity* offers an up-to-date holistic introduction to cultural anthropology. Key themes of appreciating the experiences students bring to the classroom, appreciating cultural diversity, and appreciating the field of anthropology are showcased throughout the text. In this edition, *Understanding Ourselves* chapter openers and *Through the Eyes of Others* boxes show how anthropology helps us understand ourselves. New *Appreciating*

Diversity boxes focus on the various forms of human biological and cultural diversity. *Appreciating Anthropology* boxes are also new to the text and focus on the value and usefulness of anthropological research and approaches.

Yuri Lotman (1922-1993) was one of the most prominent and influential scholars of the twentieth century working in the Soviet Union. A co-founder of the Tartu-Moscow school of semiotics, he applied his mind to a wide array of disciplines, from aesthetics to literary and cultural history, narrative theory to intellectual history, cinema to mythology. This collection provides a stand-alone primer to his intellectual legacy in both semiotics and

cultural history. It includes new translations of some of his major pieces as well as works that have never been published in English. The collection brings Lotman into the orbit of contemporary concerns such as gender, memory, performance, world literature, and urban life. It is aimed at students from various disciplines and is augmented by an introduction and notes that elucidate the relevant contexts.

Political Anthropology SAGE Publications

After fifteen years of teaching anthropology at a large university, Rebekah Nathan had become baffled by her own students. Their strange behavior—eating meals at their desks, not completing reading assignments, remaining silent through class discussions—made her feel as if she were dealing with a completely foreign culture. So Nathan decided to do what anthropologists do when confused by a different culture: Go live with them. She enrolled as a freshman, moved into the dorm, ate in the dining hall, and took a full load of courses. And she came to understand that being a student is a pretty difficult job, too. Her discoveries about contemporary undergraduate culture are surprising and her observations are invaluable, making *My Freshman Year* essential reading for students, parents, faculty, and anyone interested in educational policy.
