The Blue, Red Lyrea is
a twin novella book,
Offing and The
Cheshire Grins. They
have both been written
in a stream-of-
consciousness style.
Either way both stories

are tied like the
constellations of the
lyre of the deep skies.
Hence, the title The
Blue, Red Lyrea to
mean the colours of
two of five main
constellations. Blue is
indicative of hot and
red, indicative of cold,
an existential allusion
to life, dancing at
cosmic tune of a
symbolic harp that Lyra
stands for.

Are you a genius or a genius maker? We've all had experience with two dramatically different types of leaders. The first type drain intelligence, energy, and capability from the ones around them and always need to be the smartest ones in the room. These are the idea killers, the energy sappers, the diminishers of talent and commitment. On the other side of the spectrum are leaders who use their intelligence to amplify the smarts and capabilities of the people around them. When these leaders walk into a room, lightbulbs go off over people's heads, ideas flow, and problems get solved. These are the

leaders who inspire employees to stretch themselves to deliver results that surpass expectations. These are the Multipliers. And the world needs more of them, especially now, when leaders are expected to do more with less. In this engaging and highly practical book, leadership expert Liz Wiseman and management consultant Greg McKeown explore these two leadership styles, persuasively showing how Multipliers can have a resoundingly positive and profitable effect on organizations—getting more done with fewer resources, developing and attracting talent, and cultivating new ideas and energy to drive organizational change and innovation.

In analyzing data from more than 150 leaders, Wiseman and McKeown have identified five disciplines that distinguish Multipliers from Diminishers. These five disciplines are not based on innate talent; indeed, they are skills and practices that everyone can learn to use—even lifelong and recalcitrant Diminishers. Lively, real-world case studies and practical tips and techniques bring to life each of these principles, showing you how to become a Multiplier too, whether you are a new or an experienced manager. Just imagine what you could accomplish if you could harness all the energy and intelligence around you. Multipliers will show you how.

From MSNBC correspondent Steve Kornacki, a lively and sweeping history of the birth of political tribalism in the 1990s—one that brings critical new understanding to our current political landscape from Clinton to Trump In The Red and the Blue, cable news star and acclaimed journalist Steve Kornacki follows the twin paths of Bill Clinton and Newt Gingrich, two larger-than-life politicians who exploited the weakened structure of their respective parties to attain the highest offices. For Clinton, that meant contorting himself around the various factions of the Democratic party to win the presidency.

Gingrich employed a scorched-earth strategy to upend the permanent Republican minority in the House, making him Speaker. The Clinton/Gingrich battles were bare-knuckled brawls that brought about massive policy shifts and high-stakes showdowns—their collisions had far-reaching political consequences. But the '90s were not just about them. Kornacki writes about Mario Cuomo's stubborn presence around Clinton's 1992 campaign; Hillary Clinton's star turn during the 1998 midterms, seeding the idea for her own candidacy; Ross Perot's wild run in 1992 that inspired him to launch the Reform Party, giving Donald

Trump his first taste of electoral politics in 1999; and many others. With novelistic prose and a clear sense of history, Steve Kornacki masterfully weaves together the various elements of this rambunctious and hugely impactful era in American history, whose effects set the stage for our current political landscape. In the future-fantasy world of RWBY, Rooster Teeth's hit animated webseries, teens train to become warriors. Join the fight in this epic official, original novel from E.C. Myers and RWBY's head writers! A storm is coming...After their strange mission in the desert, Coco, Fox, Velvet, and Yatsunashi are back at Shade Academy, doing some "extracurricular" work to track down The

Crown, a mysterious force that's snatching up people with powerful semblances. The job should be easier with Team SSSN by their side, but The Crown continues to evade them. Out of options and worried that a bigger plot is in motion, CFVY and SSSN notify Theodore, the Headmaster of Shade Academy, but Theodore has problems of his own. Troubled by the disasters at Beacon and Haven Academies and struggling to support the flood of refugee students, Theodore declares a new initiation-including the formation of new teams to better unite the student body. Amid mounting tension at the school, CFVY and SSSN must contend with unfamiliar teammates and uneasy

rivalries, all while The Crown plots their next move. Don't miss this exclusive, original story straight from award-winning author E.C. Myers and RWBY's head writers, Kerry Shawcross and Miles Luna!

The first novel by “master of mystery” (The New York Times) Walter Mosley, featuring Easy Rawlins, the most iconic African American detective in all of fiction. Named one of the “best 100 mystery novels of all time” by the Mystery Writers of America, this special thirtieth anniversary edition features an all new introduction from the author. The year is 1948, the town is Los Angeles. Easy Rawlins,

a black war veteran, has just been fired from his job at a defense factory plant. Drinking in his friend’s bar, he’s wondering how he’ll manage to make ends meet, when a white man in a linen suit approaches him and offers him good money if Easy will simply locate Miss Daphne Money, a missing blonde beauty known to frequent black jazz clubs. Easy has no idea that by taking this job, his life is about to change forever. “More than simply a detective novel...[Mosley is] a talented author with something vital to say about the distance between the black and white worlds, and with a dramatic way to say it” (The New York Times).

 What is a political representative's job, really? Are they supposed to simply figure out what "the people" want and deliver it, or are they charged to do what they think is best for their constituents -- even if that means sometimes ignoring those constituents' wishes? In *Representing Red and Blue*, David Barker and Christopher Carman explore what people think about this question, why their answers vary, and what difference it makes. They observe that the citizens of "Red America" -- religious and cultural traditionalists, including most Republicans -- often prefer lawmakers who challenge public

opinion, whereas "Blue Americans," or culturally progressive Democrats, typically prefer lawmakers who follow it. What is more, these preferences filter up: lawmakers who represent progressive locales tend to pursue the policies their constituents want, whereas representatives of more traditionalistic places often behave quite differently, leaning decidedly to the Right of even most Red American voters. The fundamental reason underlying these patterns, Barker and Carman argue, is that on average, traditionalists and progressives simply do not hold the values of liberal popular democracy in equally high esteem. What all of this means is that

the citizens of Red America live in a different kind of democracy than that of the citizens of Blue America -- one where they have less political say over what their government does, but one that seems to suit their tastes all the same.

for the dream that my children will be born free,” she says. “That they will be what they like. That they will own the land their father gave them.” “I live for you,” I say sadly. Eo kisses my cheek. “Then you must live for more.” Darrow is a Red, a member of the lowest caste in the color-coded society of the future. Like his fellow Reds, he works all day, believing that he and his people are making the surface of Mars livable for future generations. Yet he toils willingly, trusting that his blood and sweat will one day result in a better world for his children. But Darrow and his kind have been betrayed. Soon he discovers that humanity reached the surface generations ago. Vast cities and

lush wilds spread across the planet. Darrow—and Reds like him—are nothing more than slaves to a decadent ruling class. Inspired by a longing for justice, and driven by the memory of lost love, Darrow sacrifices everything to infiltrate the legendary Institute, a proving ground for the dominant Gold caste, where the next generation of humanity's overlords struggle for power. He will be forced to compete for his life and the very future of civilization against the best and most brutal of Society's ruling class. There, he will stop at nothing to bring down his enemies . . . even if it means he has to become one of them to do so. Praise for Red Rising "[A] spectacular adventure . . . one

When viewed through the context of an interactive play, a video game player fulfills the roles of both actor and spectator, watching and influencing a game's story in real time. This book presents video gaming as a virtual medium for performance, scrutinizing the ways in which a player's interaction with the narrative informs personal, historical, social and cultural understanding. Centering the author's own experiences as both video game player and performance scholar, the book thoroughly applies concepts from

theatre and performance studies. Chapters argue that the posthuman player position now challenges what can be contextualized as a lived experience, and how video games can change players' relationships with historical events and contemporary concerns, ultimately impacting how they develop a sense of self. Using the author's own gaming experiences as a framework, the book focuses on the intersection between player and narrative, exploring what engagement with a storyline reveals about identity and society.

The Blue, Red Lyrae

Harvard Business Press "Assessing where the red/blue political line lies in swing states and how it is shifting Democratic-leaning urban areas in states that otherwise lean Republican is an increasingly important phenomenon in American politics, one that will help shape elections and policy for decades to come. Blue Metros, Red States explores this phenomenon by analyzing demographic trends, voting patterns, economic data, and social characteristics of twenty-seven major

metropolitan areas in thirteen swing states—states that will ultimately decide who is elected president and the party that controls each chamber of Congress. The book's key finding is a sharp split between different types of suburbs in swing states. Close-in suburbs that support denser mixed-use projects and transit such as light rail mostly vote for Democrats. More distant suburbs that feature mainly large-lot, single-family detached houses and lack mass transit often vote for Republicans. The book locates the red/blue dividing line and assesses the electoral state of play in every swing state. This red/blue political line is rapidly shifting,

however, as suburbs urbanize and grow more demographically diverse. Blue Metros, Red States is especially timely as the 2020 elections draw near. "

FF CreateSpace Politics isn't a four-letter word. Everyone's been at that dinner party. The conversation takes a political turn. The arguments start, the atmosphere grows tense, and all that remains is a hopeless stalemate and an awkward silence. Makes you wonder . . . is thoughtful and productive dialogue about politics even possible? In *Honoring God in the Red or Blue*, Dr. Amy Black addresses the debaters as well as those intimidated or annoyed

by the debaters; political junkies and the contented uninvolved. She explains the purposes and limitations of our system and helps readers create realistic expectations for government. While God's truth is perfect, human application of it is not, a reality that shouldn't deter us from engaging in debate and staying informed. Rather, it should challenge us to raise our standards for how we speak about the issues—and those in office. It's time to approach political divides with an extra measure of grace. When his mother became President, Alex Claremont-Diaz was promptly cast as the American equivalent of a young royal. Handsome, charismatic, genius—his image is pure millennial-marketing gold for the White House. There's only one problem: Alex has a beef with the

actual prince, Henry, across the pond. And when the tabloids get hold of a photo involving an Alex-Henry altercation, U.S./British relations take a turn for the worse. Heads of family, state, and other handlers devise a plan for damage control: staging a truce between the two rivals. What at first begins as a fake, Instagramable friendship grows deeper, and more dangerous, than either Alex or Henry could have imagined. Soon Alex finds himself hurtling into a secret romance with a surprisingly unstuffy Henry that could derail the campaign and upend two nations and begs the question: Can love save the world after all? Where do we find the courage, and

the power, to be the people we are meant to be? And how can we learn to let our true colors shine through? Casey McQuiston's Red, White & Royal Blue proves: true love isn't always diplomatic.  Nominee for National Book Critics Circle Award, this volume contains many delights and some long poems. There is a European feel about Hecht's verse that is striking, partly due to the richness of the classical allusions, and partly due to the way Hecht handles autobiography. Poetry in the 20th century is very much shaped by the individualism of our times, but poetry that is in essence confessional, eccentric, and overly particularized quickly becomes tiresome. Hecht often avoids this pitfall by realizing his own insight through cultural rather than

personal metaphor, and this allows his words and imagery to remain fresh and resonant. ISBN 0-394-58506-2: \$18.95.

 Gisela of Steinland was born without color. Behind her back, servants whisper that she is a moon child, a child of the devil. Albino. But as a royal daughter of King Arnold the Red, Gisela is still good for two things: forging marriage alliances and birthing children-sons, of course. If only Gisela did not look like a ghost, her father could have married her off years ago. Instead, her first betrothal started a ten-year-war he is determined to win at all costs, even if he has to bring her out of

hiding to do it. Bloodless Kristoff, the savage Krongon commander to the north, does not care what Gisela is, only that she is Steinland's heir. His last kill. With her spilled blood, he can end his revenge on the Reds once and for all. Desperate, Gisela's father is forced into an alliance with a king he

despises, and Gisela finds herself betrothed once again, this time to an old brute. Unwilling to be the sacrificial lamb, she goes on the run, throwing herself into a fight for her life, a battle between three kingdoms, and the deep longing to be loved. Can the girl who started the war find a way to end it?
