SANIYA COLLIER

A Critical Introduction to Social Research McGraw-Hill Education (UK)

Unequal Relations provides comprehensive coverage of the important issues and topics for courses on race and ethnicity including racism, multiculturalism and diversity. It gives students an introduction to the politics of race, ethnic, and Aboriginal relations as fundamentally unequal relations within a dynamic Canada, that is both rapidly changing and increasingly diverse, yet more uncertain and confused. Three themes prevail in addressing this dynamic: the social, the political, and the national.

New Media Rowman & Littlefield

We may think we control our own destinies, but who we are, how we think, what we feel, and how we act are shaped by multiple, intersecting identities that have different amounts of power and

value in our society. Being Unequal explores how identity categories associated with race, class, gender, and sexuality help shape inequality. This concise and accessible book asks: How is identity experienced? How does identity help reproduce inequality? How does identity help resist inequality? What is the relationship between micro and macro inequality—in other words, how do our personal experiences shape larger social forces? Being Unequal argues that identities matter because they are a critical part of a complex social process in which everyday interactions contribute to larger systems of structural inequality. By recognizing the links between identity and inequality, Being Unequal also highlights the power of collective action to resist and oppose domination and exploitation. Filled with engaging real-world examples ranging from the social construction of momentary high school cliques to the emergence of momentous social movements, Being Unequal is a powerful introduction to social identities and the ways they shape our world. In recent years, postcolonial perspectives and insights have challenged our conventional understanding of international politics. *Postcolonial Theory and International Relations* is the first book to provide a comprehensive and accessible survey of how postcolonialism radically alters our understanding of international relations. Each chapter is written by a leading international scholar and looks at the core components of international relations – theories, the nation, geopolitics, international law, war, international political economy, sovereignty, religion, nationalism, Empire etc. – through a postcolonial lens. In so doing it provides students with a valuable insight into the challenges that postcolonialism poses to our understanding of global politics.

A Critical Introduction to Race, Ethnic, and Aboriginal Dynamics in Canada BRILL

Race and Ethnicity in Canada: A Critical Introduction is a core text for both one-semester and full-year sociology-of-work courses, either alone or in combination with other materials. The aim of this book is to help students analyze and understand some of the complex patterns of immigration, aboriginal/non-aboriginal relations and of race and ethnic relations in Canada. In doing so, it deals with major approaches to, and explanations of, a number of issues that are central to the field. The authors adopt a position of methodological and theoretical pluralism in order to encourage students to think critically about these issues. The text begins with a discussion of central concepts and theories in the field of race and ethnic relations. Chapter 2 provides historical context for understanding contemporary patterns of immigration, French-English relations, race and ethnic relations and Aboriginal/non-Aboriginal relations. Chapter 3 discusses issues associated with the contemporary immigration system. Chapter 4 looks at economic inequality among immigrants, non-immigrants and racial and ethnic groups. Chapter 5 examines issues of ethnic identity and multiculturalism. Chapter 6 outlines various definitions of racism, and evaluates a number of sociological explanations for racism. Chapter 7 turns to contemporary Aboriginal/non-Aboriginal relations. Finally, Chapter 8 explains and critiques two new approaches to the study of immigration and ethnic relations: the concepts of 'diaspora' and 'transnationality.'

Law and Society Routledge

Challenging the usual introductions to the study of law, **A Critical Introduction to Law** argues that law is inherently political and reflects the interests of the few even while presenting itself as neutral. This fully revised and updated fourth edition provides contemporary examples to demonstrate the relevance of these arguments in the twenty-first century. The book includes an analysis of the common sense of law; the use of anthropological examples to gain external perspectives of our use and understanding of law; a consideration of central legal concepts, such as order, rules, property, dispute resolution, legitimation and the rule of law; an examination of the role of law in women's subordination and finally a critique of the effect of our understanding of law upon the wider world. Clearly written and admirably suited to provoking discussions on the role of law in our contemporary world, this book is ideal for undergraduate and postgraduate students reading law, and will be of interest to those studying legal systems and skills courses, jurisprudence courses, and law and society.
