Émile Nelligan (1879-1941) wrote all of his poetry as an adolescent, before spending four decades in a psychiatric asylum. Considering all of Nelligan's work and using a largely textual approach, Émile Talbot points out the Canadian roots of Nelligan's originality. He argues that these are discernable despite Nelligan's use of the discourse of nineteenth-century continental French poetry, particularly that of the Parnassians and the Decadents. Talbot's textual analysis is integrated with a consideration of the social, cultural, artistic, and religious climate of both late nineteenth-century Montreal and the European literary culture to which Nelligan was responding. Talbot considers such pertinent factors as the spirituality of guilt, the role of the mother, and a societal context that rejected both the revelation of the self and the autonomy of art. In doing so he sheds new light on Nelligan's use of European poetic language to fashion a poetry marked by his own culture.

Alcools, first published in 1913 and one of the few indispensable books of twentieth-century poetry, provides a key to the century's history and consciousness. Champion of "cubism", Guillaume Apollinaire (1880-1918) fashions in verse the sonic equivalent of what Picasso accomplishes in his cubist works: simultaneity. Apollinaire has been so influential that without him there would have been no New York School of poetry and no Beat

Movement. This new translation reveals his complex, beautiful, and wholly contemporary poetry. Printed with the original French on facing pages, this is the only version of this seminal work of French Modernism currently available in the United States.

Who knew that Paul McCartney originally referred to Yesterday as 'Scrambled Eggs' because he couldn't think of any lyrics for his heart-breaking tune? Or that Patti LaBelle didn't know what 'Voulez-vous couches avec moi ce soir?' actually meant? These and countless other fascinating back stories of some of our best-known and best-loved songs fill this book, a collection of the highly successful weekly The Life of a Song columns that appear in the FT Weekend every Saturday. Each 600-word piece gives a mini-biography of a single song, from its earliest form (often a spiritual, or a jazz number), through the various covers and changes, often morphing from one genre to another, always focusing on the 'biography' of the song itself while including the many famous artists who have performed or recorded it. The selection covers a wide spectrum of the songs we all know and love - rock, pop, folk, jazz and more. Each piece is pithy, sparkily written, knowledgeable, entertaining, full of anecdotes and surprises. They combine deep musical knowledge with the vivid background of the performers and musicians, and of course the often intriguing social and political background against which the songs were created.

This book sets out some of the practical techniques Jan Pleuger has used with children of all ages and abilities, and most of the ideas can also be applied to adult learners. These practical strategies are aimed at reducing both pupil and teacher anxiety and provides a deep understanding of the psychological dynamics of the modern language classroom. The result is an enjoyable book, entertainingly written and bursting with tips for busy Modern Language teachers.

By taking you through the development of a real web application from beginning to end, the second edition of this hands-on guide demonstrates the practical advantages of test-driven development (TDD) with Python. You'll learn how to write and run tests before building each part of your app, and then develop the minimum amount of code required to pass those tests. The result? Clean code that works. In the process, you'll learn the basics of Django, Selenium, Git, jQuery, and Mock, along with current web development techniques. If you're ready to take your Python skills to the next level, this book—updated for Python 3.6—clearly demonstrates how TDD encourages simple designs and inspires confidence. Dive into the TDD workflow, including the unit test/code cycle and refactoring. Use unit tests for classes and functions, and functional tests for user interactions within the browser. Learn when and how to use mock objects, and the pros and cons of isolated vs. integrated tests. Test and automate your deployments with a staging server. Apply tests to the third-party plugins you integrate into your site. Run tests automatically by using a Continuous Integration environment. Use TDD to build a REST API with a front-end Ajax interface.

This volume is the first book-length account of Yves Montand's controversial tour of the Soviet Union at the turn of the years 1956/57. It traces the mixed messages of this internationally visible act of cultural diplomacy in the middle of the turbulent Cold War. It also provides an account of the celebrated French singer-actor's controversial career, his dedication to music and to peace activism, as well as his widespread fandom in the USSR. The book describes the political background for the events of the year 1956, including the changing Soviet atmosphere after Stalin's death, portrays the rising transnational stardom of Montand in the 1940s and 1950s, and explores the controversies aroused by his plan to visit Moscow after the Hungarian Uprising. The book pays particular attention to Montand's reception in the USSR and his concert performances, drawing on unique archival material and oral history interviews, and analyses the documentary Yves Montand Sings (1957) released immediately after his visit.

Much poetic writing in France in the post-1945 period is set in an elemental landscape and expressed through an impersonal poetic voice. It is therefore often seen as primarily spatial and cut off from human concerns. This study of three poets, André du Bouchet, Philippe Jaccottet and Bernard Noël, who have not been compared before, argues that space is inseparable from time in their work, which is always in transition. The different ways in which the provisional operates in their writing show the wide range of forms that modern poetry can take: an insistence on the figure of the interval, hesitant movement, or exuberant impulse. As well as examining the imaginative universes of the poets through close attention to the texts, this book considers the important contribution they have made in their prose writing to our understanding of the visual arts and poetry translation, in themselves transitional activities. It argues that these writers have, in different ways, succeeded in creating poetic worlds that attest to close and constantly changing contact with the real.

"Songwriting" is both a comprehensive course for beginning and experienced songwriters and a rich source of new ideas, inspiration, and tricks of the trade for those who have already achieved professional standing. This new edition not only contains all of the original volume's cogent advice on how to write the always-popular genres - the country song, the ballad, and the love song - but it has been revised to include: examples of hard rock, acid, heavy metal, bubblegum, hip-hop, salsa, rap, gangsta, reggae, ska, soul, and many other of today's most recorded styles; finding a song concept, distilling the hook, choosing a form, adding harmony and selecting rhythm; an appendix telling how to copyright, computerize, notate, record, and sell your song; and full glossary of musical and songwriting terms, an explanation of rap-speak with a useful section on rhyme for rap songs, many musical examples of well-known songs, and a complete index. For the novice, Stephen Citron goes step-by-step through the writing of a song presupposing no prior knowledge of notation, harmony, rhythmic values, or rhyme. For the more experienced songwriter, "Songwriting" will serve as a one-stop reference and as an endless source of fresh ideas.

Edith Piaf is one of the more lasting myths of the French and world music. Born literally in the street, she developed a career as singer and composer that took her to be a world figure of exceptional relevance. This show is a recreation of the historic recitals of the Olympia intercut with stories and anecdotes of her life that reflect her deep love for the music, for the live and for the men. She lived her life always on the limits, defying everything and risking everything. She lived as she sang: forcing her little body to the extreme of her possibilities. And she didn't regret

Eric Moore a toutes les raisons apparentes d'être heureux : propriétaire prospère d'un magasin de photos et d'une jolie maison dans une petite ville sans problème de la côte Est, il mène une vie de famille épanouie auprès de sa femme Meredith et de son fils Keith, un adolescent de quinze ans. Cet équilibre parfait va pourtant voler en éclats à jamais... Un soir comme les autres, ses voisins demandent à Keith de garder Amy, leur fille de huit ans. Au petit matin, Amy est introuvable. Très vite, l'attention de la police se porte sur Keith et ce dernier, pataud et mal dans sa peau, se défend maladroitement. Du jour au lendemain, Eric devient l'un de ces parents qu'il a vus, à la télévision, proclamer leur foi dans l'innocence de leur enfant. Alors que l'enquête de la police se recentre autour de Keith, Eric doit lui trouver un avocat et le protéger contre les soupçons croissants de la communauté. Mais est-il tout à fait sûr de l'innocence de son fils? Si Keith était coupable, et s'il était prêt à répéter son geste... Quelle devrait être alors la responsabilité d'un père? Les feuilles mortes est le récit d'une confiance brisée et celui des efforts héroïques d'un homme pour retenir coûte que coûte les liens qui l'unissent à tous ceux qu'il aime.
