100 People Who Are Screwing Up America Blackstone Publishing
Since its original landmark publication in 1980, *A People's History of the United States* has been chronicling American history from the bottom up, throwing out the official version of history taught in schools -- with its emphasis on great men in high places -- to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, *A People's History* is the only volume to tell America's story from the point of view of -- and in the words of -- America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As historian Howard Zinn shows, many of our country's greatest battles -- the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety

standards, universal suffrage, women's rights, racial equality -- were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, *A People's History of the United States*, which was nominated for the American Book Award in 1981, features insightful analysis of the most important events in our history. Revised, updated, and featuring a new afterword by the author, this special twentieth anniversary edition continues Zinn's important contribution to a complete and balanced understanding of American history.

A comparison of nine leaders who led their nations through the greatest wars the world has ever seen and whose unique strengths—and weaknesses—shaped the course of human history, from the bestselling, award-winning author of *Churchill*, *Napoleon*, and *The Last King of America* “Has the enjoyable feel of a lively dinner table conversation with an opinionated guest.” —The New York Times Book Review Taking us from the French Revolution to the Cold War, Andrew Roberts presents a bracingly honest and deeply insightful look at nine major figures in modern history: Napoleon Bonaparte, Horatio Nelson, Winston Churchill, Adolf Hitler, Joseph Stalin, George C. Marshall, Charles de Gaulle, Dwight D. Eisenhower, and Margaret Thatcher. Each of these leaders fundamentally shaped the outcome of the war in which their nation was embroiled. Is war leadership unique, or did these leaders have something in common, traits and techniques that transcend time and place and can be applied to the essential nature of conflict? Meticulously researched and compellingly written, *Leadership in War* presents readers with fresh, complex portraits of leaders who approached war with different tactics and weapons, but with the common goal of success in the face of battle. Both inspiring and cautionary, these portraits offer important lessons on leadership in times of struggle, unease, and discord. With his trademark verve and incisive observation, Roberts reveals the qualities that doom even the most promising leaders to failure, as well as the traits that lead to victory.

One Hundred Years of Solitude Penguin

The number one New York Times bestselling author of *Bias* delivers another bombshell—this time aimed at . . . *100 People Who Are Screwing Up America* No preaching. No pontificating. Just some uncommon sense about the things that have made this country great—and the culprits who are screwing it up. Bernard Goldberg takes dead aim at the America Bashers (the cultural elites who look down their snobby noses at "ordinary" Americans) . . . the Hollywood Blowhards (incredibly ditzy celebrities who think they're smart just because they're famous) . . . the TV Schlockmeisters (including the one whose show has been compared to a churning mass of maggots devouring rotten meat) . . . the Intellectual Thugs (bigwigs at some of our best colleges,

whose views run the gamut from left wing to far left wing) . . . and many more. Goldberg names names, counting down the villains in his rogues' gallery from 100 all the way to 1—and, yes, you-know-who is number 37. Some supposedly "serious" journalists also made the list, including the journalist-diva who sold out her integrity and hosted one of the dumbest hours in the history of network television news. And there are those famous miscreants who have made America a nastier place than it ought to be—a far more selfish, vulgar, and cynical place. But Goldberg doesn't just round up the usual suspects we have come to know and detest. He also exposes some of the people who operate away from the limelight but still manage to pull a lot of strings and do all sorts of harm to our culture. Most of all, *100 People Who Are Screwing Up America* is about a country where as long as anything goes, as one of the good guys in the book puts it, sooner or later everything will go. This is serious stuff for sure. But Goldberg will also make you laugh as he harpoons scoundrels like the congresswoman who thinks there aren't enough hurricanes named after black people, and the environmentalist to the stars who yells at total strangers driving SUVs—even though she tools around the country in a gas-guzzling private jet. With *Bias*, Bernard Goldberg took us behind the scenes and exposed the way Big Journalism distorts the news. Now he has written a book that goes even further. This time he casts his eye on American culture at large—and the result is a book that is sure to become the voice of all those Americans who feel that no one is speaking for them on perhaps the most vital issue of all: the kind of country in which we want to live.

History Makers Harper Collins

A landmark history of one hundred years of war waged against the Palestinians from the foremost US historian of the Middle East, told through pivotal events and family history. In 1899, Yusuf Diya al-Khalidi, mayor of Jerusalem, alarmed by the Zionist call to create a Jewish national home in Palestine, wrote a letter aimed at Theodore Herzl: the country had an indigenous people who would not easily accept their own displacement. He warned of the perils ahead, ending his note, "in the name of God, let Palestine be left alone." Thus Rashid Khalidi, al-Khalidi's great-great-nephew, begins this sweeping history, the first general account of the conflict told from an explicitly Palestinian perspective. Drawing on a wealth of untapped archival materials and the reports of generations of family members—mayors, judges, scholars, diplomats, and journalists—*The Hundred Years' War on Palestine* upends accepted interpretations of the conflict, which tend, at best, to describe a tragic clash between two peoples with claims to the same territory. Instead, Khalidi traces a hundred years of colonial war on the Palestinians, waged first by the Zionist movement and then Israel, but backed by Britain and the United States, the great powers of the age. He highlights the key episodes in this colonial campaign, from the 1917 Balfour Declaration to the destruction of Palestine in 1948, from Israel's 1982 invasion of Lebanon to the endless and futile peace process. Original, authoritative, and important, *The Hundred Years' War on Palestine* is not a chronicle of victimization, nor does it whitewash the mistakes of Palestinian leaders or deny the emergence of national movements on both sides. In reevaluating the forces arrayed against the Palestinians, it offers an illuminating new view of a conflict that continues to this day.

The history of the world--triumphs and tragedies, breakthroughs and breakups--through the iconic jewels that have inspired and influenced since the dawn of time. From ancient treasures to royal weddings, great heists to the red carpet, this book is a stunning, surprising, and glittering tour of historic turning points and gem-driven drama, delving into the passions and predilections of some of the world's most interesting and

extraordinary people. Starting in the era of Cleopatra and continuing through to contemporary jewelry statements by Jennifer Lopez, Lady Gaga, and Meghan Markle, Stelene Volandes tells the stories of how shiny stones and precious metals have determined empires, inspired expeditions and great crime, and been the communicator of status and ruin since ancient times. Each moment is placed in historic and relevant context, with Volandes drawing engaging parallels between Napoleon's gift to Marie Louise at the birth of their son and the modern push present or the insouciant story behind the brooch Jackie Kennedy famously wore to a 1962 State Dinner with the Shah of Iran. Illustrated with a mix of archival images and gorgeous photography of the jewels, this book is a beautiful, informative, and essential read for history lovers, fashion, celebrity, and pop-culture followers, as well as passionate jewel hounds.

100 Women Who Made History Penguin

Since 1619, when Africans first came ashore in the swampy Chesapeake region of Virginia, there have been many individuals whose achievements or strength of character in the face of monumental hardships have called attention to the genius of the African American people. This book attempts to distill from many wonderful possibilities the 100 most outstanding examples of greatness. Pioneering scholar of African American Studies Molefi Kete Asante has used four criteria in his selection: the individual's significance in the general progress of African Americans toward full equality in the American social and political system; self-sacrifice and the demonstration of risk for the collective good; unusual will and determination in the face of the greatest danger or against the most stubborn odds; and personal

achievement that reveals the best qualities of the African American people. In adopting these criteria Professor Asante has sought to steer away from the usual standards of popular culture, which often elevates the most popular, the wealthiest, or the most photogenic to the cult of celebrity. The individuals in this book - examples of lasting greatness as opposed to the ephemeral glare of celebrity fame - come from four centuries of African American history. Each entry includes brief biographical information, relevant dates, an assessment of the individual's place in African American history with particular reference to a historical timeline, and a discussion of his or her unique impact on American society. Numerous pictures and illustrations will accompany the articles. This superb reference work will complement any library and be of special interest to students and scholars of American and African American history.
