Songs Renaissance to Baroque

This book proposes new ways of exploring vocal and instrumental music in northern and central Italy in the sixteenth and early seventeenth centuries. The text focuses on the consolidation of the 'High Renaissance' style of Josquin Desprez and his contemporaries, and the subsequent transformation of this style under the pressure of new aesthetic and functional demands made upon music, and of shifting social, political and cultural circumstances as Italy moved into the period of the Counter-Reformation, and the arts moved through Mannerism into the Baroque. The effects of these changing contexts upon such masters as Giovanni Pierluigi da Palestrina and Claudio Monteverdi are fully documented here, but this is less a 'great composer' book than a study of secular, sacred and theatrical styles and genres, both within the musical market-place and in relation to music's sister arts. The author also attempts to view music, and indeed all the arts, as essentially political phenomena, conditioned by (but also conditioning) social and cultural

constraints. There are copious music examples and an extensive bibliography; considerable space is also devoted to extracts from contemporary documents in translation to allow the reader first-hand experience of one of the most exciting periods in music history.

*Masterworks of the Middle Ages, the Renaissance and the Baroque Era*  
Springer

This is the first cultural history of Baroque Dresden, the capital of Saxony and the most important Protestant territory in the Empire from the mid-sixteenth to the early eighteenth century. Helen Watanabe-O'Kelly shows how the art patronage of the Electors fits into the intellectual climate of the age and investigates its political and religious context. Lutheran church music and architecture, the influence of Italy, the cabinet of curiosities and the culture of collecting, alchemy, mining and early technology, official image-making and court theatre are some of the wealth of colourful subjects dealt with during the period 1553 to 1733.

**High Voice Introduction by Joan Frey Boytim** Hal Leonard Corporation

Nicholas Lanier (1588-1666) was not only the first person to hold the office of Master of the Music to King Charles I, he was also a practising painter, a friend of Rubens, Van Dyck and many other artists of his time, and one of the very first great art collectors and connoisseurs. He is especially remembered for the part he played in acquiring, on behalf of Charles I, the famous collection of paintings belonging to the Gonzaga family of Mantua. Many of these paintings still form an important part of the Royal Collection today. In this book the different strands of Lanier's colourful life are for the first time drawn together and presented in a single compelling narrative.

*Tonic to the Nation: Making English Music in the Festival of Britain* Indiana University Press

This book explores the use of the Biblical

text of the Song of Songs in seventeenth-century England. It charts the period's fascination with the idea of the mystical marriage, and shows how this image was implicated in the conflicts and political struggles of the time. It investigates the appeal of the Song of Songs to women authors and popular writers, and helps to explain some of the extraordinary developments in seventeenth-century English culture.

**Master of the King's Musick** Oxford University Press on Demand (Vocal Collection). This collection is designed for those students, of any age beyond early teens, in the early stages of voice study, although the arrangements are so satisfying that more advanced singers will also enjoy them. The ranges are modest, and songs have been chosen for both genders. The new arrangements are lovely, fresh and interesting, but keep the simple vocal line in the forefront. The piano accompaniments were deliberately designed for an intermediate level player. The audio includes beautiful performances of each song by professional singers to be used as a learning tool, and a piano accompaniment track for practice. Joan Boytim, the leading American expert on teaching the young voice, has added a preface about how to use these songs in the studio. Highlights: Barbara Allen \* I Gave My Love a Cherry \* Johnny Has Gone for a Soldier \* Shenandoah \* The Streets of Laredo \* The Water Is Wide. 100 Performance Strategies for the Advanced Singer Rowman & Littlefield (Vocal Collection). An excellent collection of 34 songs, especially useful in teaching students. This collection is a good alternative or companion to the standard Baroque Italian songs and arias. Now with recorded accompaniments by

pianist Laura Ward. The audio is accessed online using the unique code inside each book and can be streamed or downloaded. The audio files include PLAYBACK+, a multi-functional audio player that allows you to slow down audio without changing pitch, set loop points, change keys, and pan left or right.

In this study, L.E. Semler begins with a

comprehensive, historical definition of Mannerism in visual arts from which he derives four key terms that constitute the nucleus of the aesthetic: technical precision, elegance, grazia, and the difficulta:facilita formula. These principles - interwoven with one another and with maniera - are derived from visual arts but are specifically designed to be transferable to any medium. The rest of the book situates the English poets in relation to the visual arts - including painting, limning, gold- and silversmithery, architecture, and garden design - and discusses their verse in relation to the key Mannerist principles.
