This third book from Dr. Ian Billinghurst was written to help pet owners either understand or expand their knowledge of evolutionary diets for both dogs and cats. It contains important background research from his first two books together with lots of new information. Experienced "BARFers" will benefit from a number of new suggested recipes and practical information to assist in the home production of BARF diets - now everyone can do the BARF diet for their pets! *Brain Training for Dogs* Dogwise Publishing -With a preface by Mark Blaisse, author of *Before They Passed Away*, this book picks out one street in 200 different cities across the 7 continents - By means of infographics and a short text, the street becomes a symbol for a culture, a country in its entirety -Seven years of travel were needed to make this book -With a focus on detailed street knowledge, this is the perfect gift for travelers and photography enthusiasts alike 200 countries; one street each; seven years of traveling and collecting photos, stories, facts and figures about each

country. This is not just another photography book. It reveals everything that a street means to society: education, wisdom, youth, experience, happiness, stories, food, and so much more. This is the raw material of life, drawn directly from the experiences of the Belgian photographer Jeroen Swolfs. Seeing the street as a unifying theme, he traveled in search of that one street in each place - sometimes by a harbor or a railway station - that comprised the country as a whole. Each stunning image conveys culture, colors, rituals, even the history of the city and country where he found them. Swolfs sees the street as a universal meeting place, a platform of crowds, a center of news and gossip, a place of work, and a playground for children. Indeed, Swolfs's streets are a matrix for community; his photographs are published at a time when the unique insularity of local communities everywhere has never been more under threat. **Feeding Dogs Dry Or Raw? A treasure trove of pin-up girl images from photographer Bunny Yeager, celebrated for her playfully erotic photos of Bettie Page that continue to influence photography and fashion today. The

only woman pin-up photographer of her day, Bunny Yeager was also a model in her own right. After winning several beauty pageants in Miami, Yeager went to photography school, and in 1955, she hit the jackpot with her shot of Bettie Page scantily clad in a Santa hat, which sold instantly to the fledgling *Playboy* magazine. The beginning of a long collaboration, her photographs of Bettie have now been featured on more magazine covers than those of Marilyn Monroe. This glamorous volume gathers more than a hundred lens-fogging photographs embodying the naughty girl-next-door eroticism of pin-up culture. Culled from Yeager's extensive archive, the collection includes her most iconic shots of the legendary Bettie as well as many previously unpublished images. Yeager's pioneering self-portraits and excerpts from her charming 1960s how-to manuals are featured alongside dozens of wholesome beauties shot in the studio and on location. A fun and sexy book, it is sure to tap into the current burlesque trend and the popularity of glamour photography

and vintage American culture.

These photographs by Drew Barrymore reveal hearts found in everyday situations. "I have always loved hearts," writes acclaimed actress Drew Barrymore in the foreword to this heartwarming gift book. "The way that continuous line accomplishes the most extraordinary thing -- it

Some are obvious and others barely discernible. A discarded straw wrapper, a hole in a T-shirt, a scallion in a bowl of miso soup -- seemingly everywhere she turns her lens a heart reveals itself.
