Meeting the Ethical
Challenges of Leadership

SAGE Publications,
Incorporated
This open access book
discusses how the
involvement of citizens
into scientific endeavors is
expected to contribute to
solve the big challenges

of our time, such as
climate change and the
loss of biodiversity,
growing inequalities
within and between
societies, and the
sustainability turn. The
field of citizen science has

been growing in recent decades. Many different stakeholders from scientists to citizens and from policy makers to environmental organisations have been involved in its practice. In addition, many scientists also study citizen science as a research approach and as a way for science and society to interact and collaborate. This book provides a representation of the practices as well as scientific and societal outcomes in different disciplines. It reflects the contribution of citizen

science to societal development, education, or innovation and provides an overview of the field of actors as well as on tools and guidelines. It serves as an introduction for anyone who wants to get involved in and learn more about the science of citizen science.

Meeting the Ethical Challenges of Leadership
Routledge

Educational leaders not only face moral and ethical decisions regarding their classrooms, schools,

districts, and education institutions, but they also must consider the complexities and threats that impact their communities. In this unstable era of war, terrorism, natural disasters, accountability, and high stakes testing, this process is particularly daunting. *Ethical Educational Leadership in Turbulent Times* is an engaging, case-study based text that will assist leaders in their ethical decision-making processes during a time of turbulence and

uncertainty. The book is framed by Gross's Turbulence Theory and Shapiro and Stefkovich's Multiple Ethical Paradigms of justice, critique, care, and the profession. Presenting clear explanations of theory in combination with authentic dilemmas developed by practitioners, this book will assist leaders in dealing with challenging situations in their own settings. New in the Second Edition: Expanded discussion of Turbulence Theory and addition of the

most recent scholarship in the field of ethical leadership. New cases addressing adequate yearly progress, misuse of student data, financial pressures, curriculum design, student safety, athletics, and social justice issues. Updated end-of-case questions to reflect contemporary issues. Ethical Educational Leadership in Turbulent Times is a valuable book for both aspiring and practicing educational administrators and leaders. *Zoo Ethics* Bloomsbury

Publishing USA Journalism and mass communications professionals entering the innovative world of new media technology face a wave of challenging and often unanticipated ethical quandaries. *Digital Dilemmas: Ethical Issues for Online Media Professionals* is the first title in Blackwell Publishing's Media and Technology series (Alan B. Albarran, series editor). This important new text establishes a framework for discussing, understanding, and

ultimately making sound decisions on meeting these ethical challenges. In addition, the book provides guidelines for approaching and making decisions from an ethical standpoint. Part one of the text gives background and overview information to examine existing professional ethical codes and their applicability in the new media. Part two delves into the ethical dilemmas faced by all online communications professionals—privacy, speech and intellectual property. Part three warns

the reader about three specific types of ethical hazards—speed vs. accuracy and quality; validating Internet sources; and blurring editorial with commercial information. Through the use of historical summaries, discussion of specific problems, case study illustrations, critical thinking exercises, chapter summaries, key points, and recommended readings, each chapter comprehensively explores ethical issues. Aimed at students as well as practicing journalists and

media professionals, *Digital Dilemmas* serves as the essential text and user's guide to the emerging ethical challenges facing those who work or plan to work in the online media. Care in Healthcare CSIRO PUBLISHING
Ethics is at the heart of leadership. All leaders assume ethical burdens and must make every effort to make informed ethical decisions and foster ethical behavior among followers. This book explores the ethical demands of leadership

and the dark side of leadership, and help readers make ethical decisions, lead with integrity, and create an ethical culture.

Organizational Ethics

Routledge

This book provides an authoritative insight on the Loss and Damage discourse by highlighting state-of-the-art research and policy linked to this discourse and articulating its multiple concepts, principles and methods. Written by leading researchers and practitioners, it identifies

practical and evidence-based policy options to inform the discourse and climate negotiations. With climate-related risks on the rise and impacts being felt around the globe has come the recognition that climate mitigation and adaptation may not be enough to manage the effects from anthropogenic climate change. This recognition led to the creation of the Warsaw International Mechanism on Loss and Damage in 2013, a climate policy mechanism dedicated to dealing with

climate-related effects in highly vulnerable countries that face severe constraints and limits to adaptation. Endorsed in 2015 by the Paris Agreement and effectively considered a third pillar of international climate policy, debate and research on Loss and Damage continues to gain enormous traction. Yet, concepts, methods and tools as well as directions for policy and implementation have remained contested and vague. Suitable for researchers, policy-

advisors, practitioners and the interested public, the book furthermore: • discusses the political, legal, economic and institutional dimensions of the issue • highlights normative questions central to the discourse • provides a focus on climate risks and climate risk management. • presents salient case studies from around the world.

Artificial Intelligence for a Better Future Cambridge University Press

New and experienced psychotherapists alike can

find themselves overwhelmed by an ethical quandary where there doesn't seem to be an easy solution. This book presents positive ethics as a means to overcome such ethical challenges. The positive approach focuses on not just avoiding negative consequences, but reaching the best possible outcomes for both the psychotherapist and the client. The authors outline a clear decision-making process that is based on three practical strategies: the ethics acculturation

model to help therapists incorporate personal ethics into their professional roles, the quality enhancement model for dealing with high-risk patients who are potentially harmful, and ethical choice-making strategies to make the most ethical decision in a situation where two ethical principles conflict. Throughout the decision-making process, psychotherapists are encouraged to follow four basic guidelines: Focus on overarching ethical principles Consider

intuitive, emotional, and other nonrational factors. Accept that some problems have elusive solutions. Solicit input from colleagues and consultation groups. Numerous vignettes illustrate how to apply positive ethics to many different ethical challenges that psychotherapists will likely encounter in practice.

Ethics in the Workplace

Sage Publications, Incorporated
With an interdisciplinary focus, Organizational

Ethics equips students with the knowledge and skills they need to make a positive impact in a variety of workplaces. Author Craig E. Johnson builds the text around interdependent levels of organizational behavior, examining ethics at the individual, group, and organizational levels. Self-assessments, reflection features, and application projects give students ample opportunity to practice their ethical reasoning abilities. The Fifth Edition includes over 25 new case studies on

current events and prominent figures, 24 new self-assessments, and new discussions on topics such as cross-cultural ethical conflict and organizational virtue.

Ethical Leadership and Decision Making in Education SAGE

Publications

In a span of 81 days in 1978, Henry Rono broke four world records, committing the most ferocious assault on the track-and-field record books by a middle-distance runner in the history of the sport. This is

what Henry Rono is known for. However, it is not who Henry Rono is. Henry Rono was born a poor Nandi in Kenya's Rift Valley. After an accident when he was two, doctors believed he would never again walk. This would be the first of countless obstacles Rono would have to overcome in order to pursue his two life goals: to first become the greatest runner in the world and then to become the best teacher he could be. Rono's first goal was accomplished in 1978, when he was considered

not only the greatest track-and-field athlete in the world, but also by many to be the world's greatest athlete period. His second and greater goal, to become a teacher, was more difficult in coming. Once Rono became a star, coaches, agents, meet directors, and corrupt Kenyan athletic officials (whose boycotts of the 1976 and 1980 Olympics turned Rono's dreams of Olympic gold into Olympic smoke rings), wanted him to serve as their personal moneymaker, and so they

did everything they could to discourage Rono's pursuit of an education and dream of teaching. The corruption and discouragement Rono encountered, as well as his alienation and exile from his homeland and family, pushed him to 20 years of alcoholism and even occasional homelessness. This is the life story of Henry Rono, whose descent from triumph to abyss, and whose subsequent ascent from abyss to triumph, are perhaps steeper than those of any track-and

field athlete in history. **Ethics in Action** St. Martin's Press Ethical Challenges in Oncology: Patient Care, Research, Education, and Economics covers a wide variety of topics and viewpoints about ethical issues that arise in oncology throughout the full cancer care continuum. This book provides a holistic view on oncology ethics, incorporating the knowledge and expertise of authors from various departments and oncology specialties

within the University of Texas MD Anderson Cancer Center. The first section focuses on the ethical issues associated with treating cancer patients. Next, the ethical challenges associated with oncology research, including funding, regulation, subject selection and the big picture are explored. The third section covers ethical issues associated with education in oncology as it reflects both past and future trends in developing proficient health care

providers, patients and even executives. Final sections concentrate on the ethical dilemmas associated with the economic repercussions of oncology, offering thoughts on how to alleviate the ethical consequences that can arise from the global effects of cancer and cancer treatment. Each chapter includes discussion topics, answers pertinent questions and provides an ethical framework for problem-solving in each scenario. The topics uncover the

ethical apprehensions and problems associated with oncology research and practice in order to determine best practices as well as provide guidance for all parties involved. Offers a diverse range of topics and viewpoints about ethical issues that arise in oncology Provides direction by bringing real issues to the forefront Contains a truly ethical approach on problems as broad as research, finance, appropriateness of care, and professional education

Ethical Educational Leadership in Turbulent Times Academic Press Ethics is at the heart of leadership. All leaders assume ethical burdens and must make every effort to make informed ethical decisions and foster ethical behavior among followers. The Sixth Edition of *Meeting the Ethical Challenges of Leadership: Casting Light or Shadow* explores the ethical demands of leadership and the dark side of leadership. Author Craig E. Johnson takes a multidisciplinary approach

to leadership ethics, drawing from many fields of research to help readers make moral decisions, lead in a moral manner, and create an ethical culture. Packed with real-world case studies, examples, self-assessments, and applications, this fully-updated new edition is designed to increase students' ethical competence and leadership abilities.

The Seven Signs of Ethical Collapse Library Juice Press
This bundle includes Peter

Northouse's Introduction to Leadership 5e (Paperback) and Craig Johnson's Meeting the Ethical Challenges of Leadership 7e (Paperback).

Bundle: Northouse: Leadership 6e + Johnson: Meeting the Ethical Challenges of Leadership 5e John Wiley & Sons
Blending theory and practice, this innovative, interdisciplinary text equips students to act as ethical change agents who improve the moral performance of their work

organizations. Written in a reader-friendly style, the book is structured around levels of organizational behavior. Author Craig E. Johnson examines ethics in not just corporations but all types of workplace organizations, including nonprofit, government, military, and educational entities.

BUNDLE: Northouse, Leadership, 2e + Johnson, Meeting the Ethical Challenges of Leadership, 4e SAGE Publications
In this collection of essays, leading

environmentalists and philosophers explore the relationship between environmental ethics and policy, both in theory and practice. The first section of the book focuses on four approaches to change in ethical theory: ecological science, feminist metaphysics, Chinese philosophy, and holistic postmodern technology. In subsequent sections the contributors emphasize the need for nontraditional solutions and attempt to expand awareness of the most pressing practical

problems. Among the topics discussed are the possibilities of real international cooperation, the inequitable but economically intractable issue of global gasses, the political and ethical challenges of city planning, and the growing evidence of fundamental inappropriateness in treating land as legal private property. This volume is based on essays presented in 1992 at the Second International Conference on Ethics and Environmental Policy. The

conference was held in response to the increasing need for a new ethics that would counter the traditional human-centered, dominantly individualistic approach of the industrial world toward the environment. Ethics and Environmental Policy SAGE Publications, Incorporated Ethics is at the heart of leadership. All leaders assume ethical burdens and must make every effort to make informed ethical decisions and foster ethical behavior among followers. The

Sixth Edition of Meeting the Ethical Challenges of Leadership: Casting Light or Shadow explores the ethical demands of leadership and the dark side of leadership. Author Craig E. Johnson takes a multidisciplinary approach to leadership ethics, drawing from many fields of research to help readers make moral decisions, lead in a moral manner, and create an ethical culture. updated new edition is designed to increase students' ethical competence and leadership abilities.

Loss and Damage from Climate Change

Routledge

The Meeting of Aesthetics and Ethics in the Academy provides a deep understanding of the nuances of ethics in the creative environment and contributes to the critical exploration of the nature of research ethics in higher education. Written by world-renown academics with a wealth

of experience in this field, this volume explores ethical challenges and responses across a range of creative practices and disciplines including design, documentary film making, journalism, socially engaged arts and the visual arts. It addresses the complex negotiations that creative practice researchers in higher education undertake to ensure that the ethical compliance required does not undermine the research integrity and artistic aspirations. By presenting

carefully considered challenges to accepted models of research, this book illustrates critical analysis through a variety of case studies and anecdotal examples that provide an insight into improved ethics practices and policies in higher education. This book is perfect for academics, ethics administrators, higher degree research candidates and supervisors looking to engage further in creative practice research and wanting to explore and understand its ethical

oversight.

Tough Choices for

Teachers Springer Nature

Top academic scholars ponder the question of ethics as it pertains to all aspects of leadership in business, government, and nonprofit organizations. If leaders were defined by their influence on history, Hitler would be on par with Gandhi, Lincoln, and Mother Theresa. Yet most of us believe that our superiors have a responsibility to exercise power with a purpose far greater than any political

agenda and a motive more noble than personal gain. This thought-provoking collection of essays explores the ethical challenges that leaders face in their relationships with followers, the choices they make, and the ways in which they influence others. Joanne Ciulla and her contributors examine the traits and characteristics of top-tier leaders. She questions the assumption that moral fortitude is an inherent part of being in charge; analyzes the roles that

charisma, morality, and delegation play in the leadership paradigm; and considers whether individuals who want to lead with integrity but are sometimes forced to get their hands dirty for their constituents can be called "moral leaders." Readers will gain an appreciation for how ethics is not an add-on to the practice of leadership but rather an integral part of it—an element that informs the very idea of what it means to lead and to lead well.

Ethics for Everyone

Oxford University Press
In Tough Choices for
Teachers: Ethical
Challenges in Today's
Schools and Classrooms,
Infantino and Wilke help
student teachers, new
teachers, and
experienced teachers
think more deeply about
ethical concerns. The case
studies included by the
authors involve ethical
dilemmas dealing with
honesty, integrity, and
proper professional
behavior.

BUNDLE: Northouse:
Introduction to Leadership

Meeting the Ethical
Challenges of Leadership
7e (Paperback) SAGE
Publications, Incorporated
This book is the product of
a multi-year dialogue
between leading human
rights theorists and high-
level representatives of
international human
rights NGOs (INGOs). It is
divided into three parts
that reflect the major
ethical challenges
discussed at the
workshops: the ethical
challenges associated
with interaction between
relatively rich and
powerful northern-based

human rights INGOs and
recipients of their aid in
the South; whether and
how to collaborate with
governments that place
severe restrictions on the
activities of human rights
INGOs; and the tension
between expanding the
organization's mandate to
address more
fundamental social and
economic problems and
restricting it for the sake
of focusing on more
immediate and clearly
identifiable violations of
civil and political rights.
Each section contains
contributions by both

theorists and practitioners of human rights.

Meeting the Ethical Challenges of Leadership -

International Student Edition John Wiley & Sons

The news pages are full of unethical politicians, the sports pages full of rule breaking players and parents, the business pages full of sleazy companies and greedy CEOs, the education pages full of students who cheat on exams. What's a person to think? Perhaps you really do have to cheat to win. Perhaps you need to shade the truth to get ahead. Good people hear that ""everybody does it,"" and wonder. Read THE ETHICS

CHALLENGE:

STRENGTHENING YOUR INTEGRITY IN A GREEDY WORLD and wonder no more. This breezy, story-filled guide to becoming a more ethical person explains why ethical behavior is a winning strategy, then lays out six things everyone can do to keep strong and to follow their good intentions. It prepares people to stick to their basic values in the face of ethical challenges they meet every day.
