A high score on an IQ test is not the only way to determine our brainpower or how successful in life we will be. While IQ assesses important aptitudes such as our logical, verbal, numerical, and spatial reasoning skills, true practical intelligence -- the kind that we rely on in our everyday lives -- goes beyond these skills. Other more "hidden" talents like our creativity, intuition, emotional sensitivity, appreciation for the world around us, and physical ability are just as essential for solving problems and overcoming life's challenges. With 160 scientifically proven self-tests and tips for improvement, as well as lively color illustrations throughout, *Are You Smarter Than You Think?* is a revealing and fun guide that shows you how to build the

innate and wide-ranging power of your mind. Book jacket.

From the duo behind the massively successful and award-winning podcast *Stuff You Should Know* comes an unexpected look at things you thought you knew. Josh Clark and Chuck Bryant started the podcast *Stuff You Should Know* back in 2008 because they were curious—curious about the world around them, curious about what they might have missed in their formal educations, and curious to dig deeper on stuff they thought they understood. As it turns out, they aren't the only curious ones.

They've since amassed a rabid fan base, making *Stuff You Should Know* one of the most popular podcasts in the world.

Armed with their inquisitive natures and a passion for sharing, they uncover the weird, fascinating, delightful, or unexpected elements of a wide variety of topics. The pair have now taken their near-boundless "whys" and "hows" from your earbuds to the pages of a book for the first time—featuring a completely new array of subjects that they've long wondered about and wanted to explore. Each chapter is further embellished with snappy visual material to allow for rabbit-hole tangents and digressions—including charts, illustrations, sidebars, and footnotes.

Follow along as the two dig into the underlying stories of everything from the origin of Murphy beds, to the history of facial hair, to the psychology of being lost. Have you ever wondered about the world around you, and wished to see the magic in everyday things? Come get curious with *Stuff You Should Know*. With Josh and Chuck as your guide, there's something interesting about everything (...except maybe jackhammers).
