The Dodge brand has been in existence for over 100years and has carried the spirit of it's founders, John and Horace Dodge who founded the company in 1914. Much of their influence has continued into the design of the 2018 Dodge model, the fastest quarter-mile production car in the world and most powerful muscle car ever. It is America's fastest, most powerful and most capable vehicle. These new SRT ultimate performance models join a brand lineup that includes the Durango, Grand Caravan, Journey, Charger and Challenger, including the 707-horsepower Challenger SRT Hellcat and the Charger SRT Hellcat, the quickest, fastest and most powerful sedan in the world. The Dodge Charger 2018, said to be released in the first half of next year, is a sporty family vehicle which comes equipped with a variety of powertrain configurations. The sedan type vehicle is known for it's heart pounding engine power and is already being rumored as one of the best upcoming sports sedans while it offers the best of both world.

Solar power, once a fringe effort limited to DIY enthusiasts, is now fast becoming mainstream. Many home and business owners are curious about solar electric and solar thermal systems, and wonder how to go about getting a clean energy generation system of their own. The vast majority will hire a professional installer to do the job. But what should they be asking of these installers? What system makes the most sense for their home or office: solar electric, solar hot water, solar heating, or some combination of these? A Solar Buyer's Guide for the Home and Office explains the options so that property owners can make the right choices both for their energy needs and their financial security. Understanding how solar power systems work will enable readers to be informed customers when dealing with professional installers-the book also provides advice on how to select a qualified installer and understand the expanding variety of tax credits and other incentives that are popping up around the country. The market for solar systems has been growing at an exponential rate and strong tax credits ensure continued growth even in a sluggish economy. Many of those who

would like to catch this undeniable wave of the future are held back by widespread confusion. A Solar Buyer's Guide for the Home and Office clears the air, allowing property owners to move forward with confidence to make their homes and offices more comfortable, environmentally sound, and secure against wild swings in energy prices.

The news is out! The Samsung Galaxy S6 Edge has been launched and announced to the public. The new invention was unveiled at the MWC2015. As expected the reaction from the public for the new product on the block known as Samsung S6 Edge sky rocketed! The Galaxy S6 EDGE features

sturdy metal frame with Gorilla Glass 4 on both the front and back. This gives the phone a feeling of stability and durability. The Samsung S6 Edge is unique in its own way making it very irresistible to own one of Samsung's babies. The way the glass wraps around either side just gives it a very stunning look. As an additional creative feature for the 'edge' is that, is now easy to see who is calling you when the phone is faced down. The phone can be programmed with up to five colors representing five different people in your contact list. The screen's EDGES will glow their representing color when they call you.

The one-stop-shop for prospective handgun buyers. The market for new handguns is expanding rapidly, and that's good news for consumers. Each year more and more new models break cover and there has never been a better time to be in the market for a new handgun, whether you're a recreational shooter, a concealed carry permit holder, a hunter or a serious competitive shooter. Today's handguns offer superb machining and utilize some of the most technologically-advanced alloys, polymers and finishes to help make the current crop of handguns lightweight, accurate, durable, and affordable. This increase in product offerings stem from new interest in handguns, primarily as a result of nationwide issuance of concealed carry permits. As laws have been enacted that protect the rights of gun owners and defend our personal liberties, more and more new shooters are showing up on the range. But first-time shooters and new concealed carry permit holders are not the only segment of the handgun market that is seeing growth and interest. Pistol competitions have become more popular and more advanced, evolving from slow-fire matches at local gun clubs to modern IPSC, IDPA and 3-gun competitions. Handgun Buyer's Guide will help both the bewildered new shooter find their feet and purchase a handgun, find the best accessories, and locate a place to practice on hone their skills. You'll find all you need for owning a handgun in the Handgun Owner's Guide! Skyhorse Publishing is proud to publish a broad range of books for hunters and firearms enthusiasts. We publish books about shotguns, rifles, handguns, target shooting, gun collecting, self-defense, archery, ammunition, knives, gunsmithing, gun repair, and wilderness survival. We publish books on deer hunting, big game hunting, small game hunting, wing shooting, turkey hunting, deer stands, duck blinds, bowhunting, wing shooting, hunting dogs, and more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home.
