Communicating Globally Prentice Hall

This book reviews, updates and enhances the basic concepts surrounding the academic theory and practice of Integrated Marketing Communication (IMC). Since the introduction of IMC in the late 1980s, the concept has spread around the world. In that expansion, many authors have written about IMC; practitioners have adopted and adapted the concept to fit their own market situations. Further, dramatic changes have occurred in the technologies used in marketing communications which consumers have accepted and employed in their consumption of marketers' messages and incentives. Thus, there have been dramatic changes in how IMC was initially envisioned and how it has developed over time. This book identifies and discusses these changes, how they have occurred and what they mean going forward for all types of marketers around the world. Thus, IMC, and indeed integration of communications at all organisational levels is an essential in the 21st century organisations. This book was published as a special issue of the Journal of Marketing Communications.

Social Media and Integrated Marketing Communication: A Rhetorical Approach explores social media in the areas of corporate identity, brand narratives, and crisis response from a rhetorical perspective. Key ideas in this text are social media as epideictic rhetoric—the rhetorical setting that deals with the present and matters of virtue and education—and how rhetorical decorum, a component of Cicero's third Canon of Style, can guide organizations and their audiences toward more ethical and effective integrated marketing communication (IMC). This strategy emphasizes changing behavior, not just attitudes. Because social media leaves traces of communication that may be with us for the foreseeable future, Social Media and Integrated Marketing Communication frames the conversation about social media and IMC to move away from a risk/reward or a return on investment orientation and toward a focus on social media as communicative action that is attentive to this historical moment, to organizations and their audiences, and to communication ethics. Through this, Pursuit asks how organizations can engage in decorum in their online IMC efforts while at the same time considering how their audiences can engage in decorum as well.

Neither romanticizing nor demonizing the areas of social media and IMC, instead, this text offers a pragmatic understanding of these areas that finds a place in the theory of the communication discipline.
