Administrative Law and Process Aspen
Publishing

This concise yet comprehensive book covers the entire range of topics on administrative law prescribed for undergraduate students of Law (LL.B./B.A., LL.B.) and presents them with great clarity and commendable insight. The book begins by describing the reasons for the rapid growth and tremendous

development of administrative law in modern times and goes on to discuss delegated legislation, principles of natural justice, contractual and tortious liability of the State, and remedies available to the individual against the State with relevant case laws. Comparison with the systems prevailing in other countries puts the topics in the right perspective. Recent developments including legitimate expectation, proportionality, and misfeasance in public office are discussed at appropriate places. The most remarkable feature of the book is that it

has transformed the complex subject of administrative law into an easily understandable subject within the grasp of even an average student. The compact size of the book and simple treatment of the subject make this text the best introduction to administrative law.

Administrative Law Aspen Publishers
Buy a new version of this textbook and receive access to the Connected eBook with Study Center on Casebook Connect, including lifetime access to the online ebook with highlight, annotation, and search capabilities. Access also includes

practice questions, an outline tool, and other helpful resources. Connected eBooks provide what you need most to be successful in your law school classes. Through thoughtful organization, careful material selection, and hundreds of practice questions, *Administrative Law: A Lifecycle Approach*, by Dean Jamelle C. Sharpe, trains students to thoroughly understand the law and theory underpinning the modern administrative state. At its core, administrative law is a process-driven course. Nevertheless, traditional casebooks are organized around legal concepts and doctrines rather than the basic stages of administrative decision-making. This casebook improves on the traditional model by following the major steps in the administrative process, thereby providing students with ample grounding in the law and practice governing it. In addition to featuring seminal administrative law decisions, *Administrative Law: A Lifecycle Approach* incorporates a variety of agency-oriented materials--government reports, charts, diagrams, orders--that give students a fuller sense of how the administrative state's organization and operations. These

carefully edited materials model how skilled jurists and administrative lawyers go about their work, how legal problems with that work arise, and how administrative, judicial, and political processes have developed to address them. Critically, this casebook also provides numerous opportunities for guided review, synthesis, analysis, and application of salient legal concepts to facilitate student learning. Dozens of questions, as many or more than any other casebook on the market, place students in the position of lawyers tasked with navigating the administrative landscape. New to the Second Edition: Updated cases. Updated developments in regulatory policy and practices. Professors and students will benefit from: In comparison with casebooks that focus almost exclusively on appellate decisions from Article III courts, this book emphasizes the lifecycle of the administrative decision-making process to place the legal doctrines typically covered by the administrative law course in a clearer practical context. Examples of agency work product and descriptions of agency organization and operations are

strategically placed throughout the book. The book also provides explanatory introductions to most topics and describes basic and recurring fact patterns that lawyers encounter when dealing with the issues of administrative law and policy. Most administrative law casebooks are comprised almost entirely of the most unusual or factually complex cases. While there is certainly value in asking students to wrestle with such cases, *Administrative Law: A Lifecycle Approach* substitutes them for more readily accessible materials of equal or greater instructional value. Where the inclusion of complex cases is unavoidable--as is the case with several seminal decisions-- this casebook provides introductory explanations to give students much needed guidance on their meaning and key concepts. Additionally, *Administrative Law: A Lifecycle Approach* includes other agency-oriented materials--reports, charts, diagrams, opinions--to give students a fuller, unmediated sense of administrative work product. *Administrative Law: A Lifecycle Approach* also takes a different approach to questions. The questions in traditional casebooks typically focus on issues that

are tangential to the materials they follow, or pinpoint conceptual knots that academics spend their careers attempting to unravel. Inspired by Bloom's Taxonomy, the questions in *Administrative Law: A Lifecycle Approach* focus instead on testing, reinforcing, and extending students' understanding of the administrative law and concepts featured throughout the book. It accordingly provides numerous problems that prompt students to apply what they have learned and to produce the types of analysis expected of skilled administrative lawyers.

Oxford University Press

The most trusted name in law school outlines, Emanuel Law Outlines were developed while Steve Emanuel was a student at Harvard Law and were the first to approach each course from the point of view of the student. Invaluable for use throughout your course and again at exam time, Emanuel Law Outlines are well-correlated to all major casebooks to help you to create your own outlines. Sophisticated yet easy to understand, each guide includes both capsule and detailed explanations of critical issues,

topics, and black letter law you must know to master the course. Quiz Yourself QandAs, Essay QandAs, and Exam Tips give you ample opportunity to test your knowledge throughout the semester and leading up to the exam. Every title in the series is frequently updated and reviewed against new developments and recent cases covered in the leading casebooks. Emanuel Law Outlines provide a comprehensive breakdown of the law, more sweeping than most, for your entire study process. For more than thirty years, Emanuel Law Outlines have been the most trusted name in law school outlines. Here's why: Developed by Steve Emanuel when he was a law school student at Harvard, Emanuel Law Outlines became popular with other law students and spawned an industry of reliable study aids. (Having passed the California bar as well, Steve Emanuel is now a member of the New York, Connecticut, Maryland, and Virginia bars.) Each Outline is valuable throughout the course and again at exam time. Outline chapters provide comprehensive coverage of the topics, cases, and black letter law covered in the course and major casebooks, written in a way you can easily

understand. The Quiz Yourself QandA in each chapter and the Essay QandA at the end provide ample opportunity to test your knowledge throughout the semester. Exam Tips alert you to the issues that commonly pop up on exams and to the fact patterns commonly used to test those items. The Capsule Summary an excellent exam preparation tool provides a quick review of the key concepts covered in the course. The comprehensive coverage is more sweeping than most outlines. Each Emanuel Law Outline is correlated to the leading casebooks. Every title is frequently updated and reviewed against new developments and recent cases covered in the leading casebooks. Tight uniformity of writing style and approach means that if you use one of these guides, you can be confident that the others will be of similar quality.
