My Life Harper Collins
 Back Cover: "The account of Dr. Chung and his family will inspire you to believe in second chances and miracles and the God who gives them both." -Max Lucado, New York Times best-selling author
 My name is Vinh Chung. This is a story that spans two continents, ten decades, and eleven thousand miles. When I was three and a half years old, my family was forced to flee Vietnam in June 1979, a place we had never heard of somewhere in the heartland of America. Several weeks later my family lay half-dead from dehydration in a derelict fishing boat jammed with ninety-three refugees lost in the middle of the South China Sea. We arrived in the

United States with nothing but the clothes on our backs and unable to speak a single word of English. Today my family holds twenty-one university degrees. How we got from there to here is quite a story. *Where the Wind Leads* is the remarkable account of Vinh Chung and his refugee family's daring escape from communist oppression for the chance of a better life in America. It's a story of personal sacrifice, redemption, endurance against almost insurmountable odds, and what it truly means to be American. All author royalties from the sale of this book will go to benefit World Vision. Flap Copy: Vinh Chung was born in South Vietnam, just eight months after it fell to the communists in 1975. His family was wealthy, controlling a rice-milling empire worth millions; but within months of the communist takeover, the Chungs lost

everything and were reduced to abject poverty. Knowing that their children would have no future under the new government, the Chungs decided to flee the country. In 1979, they joined the legendary "boat people" and sailed into the South China Sea, despite knowing that an estimated two hundred thousand of their countrymen had already perished at the hands of brutal pirates and violent seas. *Where the Wind Leads* follows Vinh Chung and his family on their desperate journey from pre-war Vietnam, through pirate attacks on a lawless sea, to a miraculous rescue and a new home in the unlikely town of Fort Smith, Arkansas. There Vinh struggled against poverty, discrimination, and a bewildering language barrier—yet still managed to graduate from Harvard Medical School. *Where the Wind Leads* is Vinh's tribute to the courage

and sacrifice of his parents, a testimony to his family's faith, and a reminder to people everywhere that the American dream, while still possible, carries with it a greater responsibility.

The Life Cycle Completed (Extended Version) Zonderkidz

In 1987, Dr. Benjamin Carson gained worldwide recognition for his part in the first successful separation of Siamese twins joined at the back of the head. Carson pioneered again in a rare procedure known as a hemispherectomy, giving children without hope a second chance at life through a daring operation in which he literally removes one half of their brain. Such breakthroughs aren't unusual for Ben Carson. He's been beating the odds since he was a child. Raised in inner-city Detroit by a mother with a third grade education, Ben lacked motivation. He had terrible grades. And a pathological temper threatened to put him in jail. But Sonya Carson convinced her son he could make something of his life, even though everything around him said otherwise. Trust in God, a relentless belief in his own capabilities, and sheer determination catapulted Ben from failing grades to the directorship of pediatric neurosurgery at Johns Hopkins Hospital in Baltimore, Maryland. *Gifted Hands* takes you into the operating room to witness surgeries that made headlines around the world—and into the private mind of a compassionate, God-fearing physician who lives to help others.

A NEW YORK TIMES BESTSELLER A remarkable story about the power of friendship. Chosen by *Essence* to be among the forty most influential African Americans, the three doctors grew up in the streets of Newark, facing city life's temptations, pitfalls, even jail. But one day these three young men made a pact. They promised each other they would all become doctors, and stick it out together through the long, difficult journey to attaining that dream. Sampson Davis, George Jenkins, and Rameck Hunt are not only friends to this day—they are all doctors. This is a story about joining forces and beating the odds. A story about changing your life, and the lives of those you love most... together.

"This book will last and last, because it contains the wisdom of two wonderfully knowing observers of our human destiny."—Robert Coles For decades Erik H. Erikson's concept of the stages of human development has deeply influenced the field of contemporary psychology. Here, with new material by Joan M. Erikson, is an expanded edition of his final work. *The Life Cycle Completed* eloquently closes the circle of Erikson's theories, outlining the unique rewards and challenges—for both individuals and society—of very old age.

Churchill's Trial Emerald Books

In 1987, Dr. Benjamin Carson gained worldwide recognition for his part in the first successful separation of Siamese twins joined at the back of the head. The extremely complex and delicate operation, five months in the planning and twenty-two hours in the execution, involved a surgical plan that Carson helped initiate. Carson pioneered again in a rare procedure known as hemispherectomy, giving children without hope a second chance at life through a daring operation in which he literally removed one half of their brain. But such breakthroughs aren't unusual for Ben Carson. He's been beating the odds since he was a child. Raised in inner-city Detroit by a mother with a third grade education, Ben lacked motivation. He had terrible grades. And a pathological temper threatened to put him in jail. But Sonya Carson convinced her son that he could make something of his life, even though everything around him said otherwise. Trust in God, a relentless belief in his own capabilities, and sheer determination catapulted Ben from failing grades to the top of his class --- and beyond to a Yale scholarship . . . the University of Michigan Medical School . . . and finally, at age 33, the directorship of pediatric neurosurgery at Johns Hopkins Hospital in Baltimore, Maryland. Today, Dr. Ben Carson holds twenty honorary doctorates and is the possessor of a long string of honors and awards, including the Horatio Alger Award, induction into the 'Great Blacks in Wax' Museum in Baltimore, Maryland, and an invitation as Keynote Speaker at the 1997 President's National Prayer Breakfast. *Gifted Hands* is the riveting story of one man's secret for success, tested against daunting odds and driven by an incredible mindset that dares to take risks. This inspiring autobiography takes you into the operating room to witness surgeries that made headlines around the world --- and into the private mind of a compassionate, God-fearing physician who lives to help others.

Through it all shines a humility, quick wit, and down-to-earth style that make this book one you won't easily forget.

Ben Carson grew up in the inner cities of Boston and Detroit with his mother and brother. When his father deserted the family, Ben's mother worked several jobs to support her boys yet worked even harder to encourage them to get an education and follow their dreams. Ben's dreams nearly ended when his anger at being poor and the ridicule of a school mate caused him to snap; he lunged at the boy and cut him with a knife. That brush with attempted murder caused Carson to break down and ask God to turn him around. And turn him around he did. A poor student, Carson under the guidance of his mother and brother became the best student in his class, his school, and ultimately earned a scholarship to Yale. The next time he used a knife was as a neurosurgeon at Johns Hopkins Hospital where he pioneered surgery techniques that not only saved lives but miraculously gave countless children an amazing quality of life. *My Life* is the story of a young boy who could have remained trapped in poverty were it not for his mother's tough and sacrificial love, his own perseverance that he learned from her example, and his deep faith that called him to do great and mighty things. This book contains a new chapter about Dr. Carson's philosophies of serving one's country, becoming role models for people with disadvantaged backgrounds, using the talents God has given you, embracing what success really is, and believing, youths and adults alike, that with hard work and perseverance, "you can do it." And on May 4, 2015, Dr. Ben Carson declared himself a candidate for the Presidency of the United States of America.

Reconstructing Lives Zondervan

Dr. Ben Carson is known as the originator of ground-breaking surgical procedures, a doctor who turns impossible hopes into joyous realities. He is also known as a compassionate humanitarian who reaches beyond corporate boardrooms to touch the

lives of inner-city kids. Where does this drive and focus come from? The Big Picture. A vision of something truly worth living for, something that calls forth the best of his amazing talents, energy, and focus. In *The Big Picture*, Dr. Carson shares with you the philosophy that has shaped his life, causing him to rise from failure to far-reaching influence. This book is not about HOW to succeed--it's about WHY to succeed. It's about broadening your perspectives. It's about finding a vision for your own life that can reframe your priorities, energize your efforts, and inspire you to change the world around you.

Real Boys' Voices Zonderkidz

Magnificent Obsession Sentinel

After telling the story of how he overcame an inner-city background to become a world-renowned neurosurgeon (Gifted Hands), Dr. Ben Carson now gives students an inspirational look at the philosophy of life that helped him meet life's obstacles and leap over them, using his lessons to help students learn to T.H.I.N.K. B.I.G. as well.

Where the Wind Leads Zondervan

Dear Reader, Many people have wondered why I've been speaking out on controversial issues for the last few years. They say I've never held political office. I'm not a constitutional scholar. I'm not even a lawyer. All I can say to that is "Guilty as charged." It's true that I've never voted for a budget America could not afford. I've never raised anyone's taxes. And I've never promised a lobbyist anything in exchange for a donation. Luckily, none of that really matters. Our founding fathers didn't want a permanent governing class of professional politicians. They wanted a republic, in Lincoln's words, "of the people, by the people, and for the people." A country where any farmer, small-business owner, manual laborer, or doctor could speak up and make a difference. I believe that making a difference starts with understanding our amazing founding document, the U.S. Constitution. And as someone who has performed brain surgery thousands of times, I can assure you that the Constitution isn't brain surgery. The founders wrote it for ordinary men and women, in clear, precise, simple language.

They intentionally made it short enough to read in a single sitting and to carry in your pocket. I wrote this book to encourage every citizen to read and think about the Constitution, and to help defend it from those who misinterpret and undermine it. In our age of political correctness it's especially important to defend the Bill of Rights, which guarantees our freedom to speak, bear arms, practice our religion, and much more. The Constitution isn't history—it's about your life in America today. And defending it is about what kind of country our children and grandchildren will inherit. I hope you'll enjoy learning about the fascinating ways that the founders established the greatest democracy in history—and the ways that recent presidents, congresses, and courts have threatened that democracy. As the Preamble says, the purpose of the Constitution is to create a more perfect union. My goal is to empower you to help protect that union and secure the blessings of liberty. Sincerely, Ben Carson

Through the advice and real-world examples laid out in these pages, you will learn how to incorporate these T.H.I.N.K. B.I.G. principles into your own life so that you, like Dr. Carson, can embrace an amazing future filled with incredible success. *You Have a Brain*: Includes discussion questions at the back of the book Unpacks the eight essential parts of Thinking Big: Talent, Honesty, Insight, Strong People Skills, Knowledge, Books, In-Depth Learning, and God Is written by Dr. Ben Carson, a world-renowned neurosurgeon, former presidential candidate, and current Secretary of Housing and Urban Development (HUD) Teaches great life lessons for young men and women Is the perfect gift for high school and college graduations, birthdays, and confirmations, and a great addition to YA book clubs and YA study groups

Unleashing Your Potential for Excellence Zondervan

Lloyd C. Douglas's 1929 novel 'Magnificent Obsession' is about Robert Merrick, who is resuscitated by a rescue crew after a boating accident. The crew is thus unable to save the life of Dr. Hudson, a physician renowned for his ability to help people, who was having a heart attack at the same time on the other side of the lake. Merrick then decides to devote his life to making up for the doctor's, and becomes a physician himself.

This book is for you if your life is a series of shattered dreams. This book is for you if you have no dreams at all. It's for you if you've bought the lie that you'll never amount to anything. That's not true. Your life is BIG--far bigger than you've imagined. Inside these pages lie the keys to recognizing the full potential of your life. You won't necessarily become a millionaire (though you might), but you will attain a life that is rewarding, significant, and more fruitful than you ever thought possible. The author of this book knows about hardship. Ben Carson grew up in inner-city Detroit. His mother was illiterate. His father had left the family. His grade-school classmates considered Ben stupid. He struggled with a violent temper. In every respect, Ben's harsh circumstances seemed only to point to a harsher future and a bad end. But that's not what happened. By applying the principles in this book, Ben rose from his tough life to one of amazing accomplishments and international renown. He learned that he had potential, he learned how to unleash it, and he did. You can too. Put the principles in this book in motion. Things won't change overnight, but they will change. You can transform your life into one you'll love, bigger than you've ever dreamed.

What We Can All Do to Save America's Future Zondervan

From Inner-City Nobody to Brilliant Neurosurgeon When Ben Carson was in school, his classmates called him the class dummy. Many—including Ben himself—doubted that he would ever amount to anything. But his mother never let him quit. She encouraged Ben to do better and reach higher for his dreams, and eventually he discovered a deep love of learning. Today this young boy from the inner-city is one of the world's greatest pediatric neurosurgeons. Through determination and lot of hard work, Ben overcame his many obstacles and is now dedicated to saving the lives of critically ill children around the world.
